

Miele cleaning products

Welcome to Miele

IMMER BESSER (forever better) - our pledge

When our two great grandfathers were in the process of founding the Miele company, they had to make sure they stood apart from the competition in order to be successful. There are effectively only two ways of doing this: either by being cheaper than the rest or by being better than the rest. It is not really possible to be both at the same time.

They decided to be "better" than the rest.

Numerous best in class awards and certificates attest to the fact that Miele has continued to renew its commitment to being "immer besser" throughout the past 115 years. However, the millions of satisfied customers around the world are perhaps the most important endorsement.

At the heart of this success lies a continuity of values and goals which are typically only found in companies which have been family-run for generations, rather than in businesses which are guided by the often short-term interests of the stock market.

It is in this sense that Miele has embodied first-class product quality and German engineering since 1899. Miele also stands in equal measure for respect, fairness and mutual esteem towards sales partners, customers, suppliers, employees and neighbours. Buying a Miele is an environmentally friendly decision. We ensure this by using methods of production that save resources as well by producing products which set new standards in terms of their consumption of electricity, water and detergent – and save you money at the same time.*

As directors and co-proprietors of the fourth generation of our business we promise you that this will not change.

Dr. Markus Miele

Dr. Reinhard Zinkann

IMMER BESSER (forever better)

Our brand promise

Many good reasons pro Miele. Six of them are explained below.

Since the company was founded in 1899, Miele has remained true to its 'Immer Besser' (forever better) brand promise. This lends expression to our endeavours to be 'Immer besser' (forever better) than our competitors and 'Immer besser' (forever better) than we already are. For our customers this means the peace of mind of knowing that choosing Miele is a good decision – and probably the decision of a lifetime!

The Miele brand

In many countries, Miele is the most coveted brand in its branch of industry. On its own home market in Germany, Miele was even voted 'best brand ever' in 2013, across all product branches. And the ownership of products from such a brand reveals much about its users: Miele customers place great demands on design, convenience and the environmental friendliness of their domestic appliances. Those who buy Miele demonstrate quality awareness and style.

Miele quality

For more than 100 years it has been a proven adage that you can trust Miele and rely on our appliances. We are the only manufacturer in our branch of industry to test products such as our washing machines, tumble dryers, dishwashers and ovens to the equivalent of 20 years of use. Once a Miele, always a Miele: Miele customers around the world remain loyal to Miele and recommend Miele to others. Looking to the future, we promise not to entertain any compromises when it comes to quality and durability!

Miele technology

Miele stands for excellent results combined with minimum energy consumption. This applies to the hygienic and gentle care of your laundry, your flooring and your crockery as well as to the conjuring up of exquisite culinary delights. Many innovative features only available from Miele ensure this and numerous first places in major prestigious product tests conducted around the world confirm it.

Miele convenience

Whether using a conventional rotary switch, discreet sensor controls or a high-resolution touch display like the one on your smartphone, operating a Miele appliance is both easy and fun. Add to this a multitude of convenient and reliable automatic programmes and a great love of detail - success is guaranteed - on both laundry and kitchen appliances. Make life easier for yourself with Miele!

Miele design

Miele believes in clean lines and timeless elegance. Nowhere else will you find such a comparable range of built-in kitchen appliances, with consistency in design lines and colour options, to suit the most diverse of interior designs and kitchen furniture fronts. Great care is taken to coordinate appliance design across the range. Whatever the style of your kitchen: Miele is the perfect match.

Miele Service

Miele customers enjoy preferential treatment: thanks to our fast and efficient after-sales service operation which has been voted best in its branch of industry many times over. We will always be there for you. That's a promise!

Achieving simple, reliable and perfect results

Cleaning products from Miele

When selecting your Miele domestic appliances, you opted for best quality and performance. To constantly achieve optimum results it is important to use the right cleaning products.

Not all off-the-shelf products deliver the same results on all washing machines or dishwashers. For this reason Miele offers cleaning products specifically designed for Miele machines.

These cleaning products were developed in Miele's in-house laboratories in cooperation with selected quality suppliers. All formulations are perfectly geared to Miele appliances.

Results are simply perfect. With Miele.

Miele cleaning products can be conveniently ordered from the Miele online shop, and will be delivered directly to your home.

www.miele-shop.com

Also available are a large selection of products which will assist you in using and maintaining your Miele domestic appliances: vacuum cleaner accessories such as dustbags, floorheads and practical attachments as well as an extensive range of cooking and baking accessories such as casserole dishes.

Alternatively, Original Miele accessories and Miele cleaning products can be ordered by telephone:

For optimum wash results

Miele detergents for Miele washing machines

Simply perfect laundry care.

Only three Miele detergents are required for your daily laundry.

- For all white textiles: UltraWhite, the multi-purpose detergent.
- For all coloureds and black garments: UltraColor colour-care detergent.
- For wool, silks and delicates: WoolCare for delicates.

Miele offers simple and compact solutions for special or high-quality loads which are only washed infrequently, such as down-filled items or textiles with breathable membranes. This provides thorough cleaning and gentle treatment of challenging fibres.

For Miele washing machines with automatic dispensing Miele also offers specific solutions: Miele UltraPhase 1 and Miele UltraPhase 2, a unique 2-component detergent system in cartridge form for whites and coloureds.

Optimum interaction of detergent and washing machine: perfectly cleaned laundry using minimum quantities of detergent.

The products are specifically formulated for Miele washing machines and deliver perfect wash results.

Based on the water quantity and the temperatures required for Miele wash and care programmes, the most efficient dispensing recommendations for achieving perfect results have been determined and successfully tested.

This allows you to tap in to the potential of your Miele machine to the full using incredibly low quantities of detergents. This also protects the environment.

UltraWhite multi-purpose detergent for spotlessly white laundry.

UltraColor colour-care detergent for brilliant colours and protection against colours running.

WoolCare detergent for the gentle cleaning of delicate textiles.

Detergents

- No overdosing thanks to automatic dispensing
- Use for 50 wash loads
- Simply perfect laundry care. With Miele

M.-Nr. 9.917.120

UltraPhase 1 and UltraPhase 2

For **W1** washing machines with TwinDos

Perfect wash results

Miele has revolutionised laundry care: no other liquid detergent system washes whites as well as coloureds as thoroughly as the 2-Phase-System from Miele. This was proven with comprehensive tests.

The secret of the excellent wash performance lies in the two liquid detergent components UltraPhase 1 and UltraPhase 2: they are dispensed from separate cartridges at the perfect point in time during the wash process – completely automatically.

The great advantage of this dispensing principle is that for the first time you can now wash not only coloureds but also whites perfectly with liquid detergents. This is a revolution in laundry care as conventional liquid detergents do not contain any bleach. This is only possible with Miele's 2-Phase-System which dispenses the required active components in stages.

Quality tests

The German Hohenstein test institute tested the automatic 2-Phase dispensing system in conjunction with Miele's UltraPhase 1 and UltraPhase 2 detergents. They confirmed excellent wash results in terms of stain removal, the degree of whiteness, the anti-greying effect and accuracy of dispensing.

Exclusive to Miele TwinDos

Dispensing completely automatically - TwinDos offers 2 options for this: you either fill liquid detergent or fabric conditioner in the supplied containers or you use Miele's 2-Phase-System.

The Miele 2-Phase-System washes white and coloured laundry perfectly clean. For maximum efficiency, TwinDos dispenses UltraPhase 1 and UltraPhase 2 at the appropriate time in the wash process. This enables Miele to achieve best wash performance and offers the best liquid detergent system on the market at the touch of a button.

Caps – the perfect addition for special applications 

Simple dispensing – perfect results

Would you like to achieve perfect wash results on items requiring special treatment such as woollens – with very little effort? For this, we now offer Miele Caps.

These small portioned capsules are simply placed into the fabric conditioner compartment. The Miele washing machine dispenses the contents of the Caps at the perfect point in time during the wash process – completely automatically.

For special applications we currently offer different types of Miele Caps: special detergents (Sport, Down, WoolCare, SilkCare), fabric conditioners (Aqua, Nature, Cocoon), and the Booster as an additive which deals with persistent soiling. Try them out – the simple operation and reliable results will amaze you.

Textiles which require special treatment previously had to be taken to a dry-cleaner, now they can also be treated perfectly with the Miele Caps. This saves time and money.

**Exclusive
to Miele**

CapDosing

Convenient capsules: conveniently portioned dispensing of special detergents, fabric conditioners, and a booster.

Fragrance flacons for tumble dryers -
for a fresh and long-lasting fragrance, fully automatically

Feel-good freshness after tumble drying

With your Miele tumble dryer you can now enjoy the superb convenience of a long-lasting and well-balanced fragrance. The new Miele fragrances add your favourite scent to your laundry during the drying process. This results in particularly bouncy and beautifully fragrant laundry that lasts for up to 4 weeks. Choose your personal favourite from 3 fragrances.

Discover a new kind of freshness

We had to search for a long time to find an experienced partner to implement our idea of adding fragrance to laundry. In cooperation with the company Mane, a family-owned company from Grasse in the South of France, we succeeded in realising our ideas. In the historical heartland of perfume production, fragrances have been created since 1871. The result is a pleasant and fresh fragrance for laundry after tumble drying - just the way you like it.

Fragrance flacon 12.5 ml

For 50 drying cycles

- For fresh, fragrant laundry that lasts for up to 4 weeks
- For bouncy as well as beautifully fragrant laundry
- Developed 'en Provence' by perfume specialists specifically for Miele

AQUA - pure and thorough cleanliness with a fresh scent. M.-Nr. 9.917.240

COCOON - for a feeling of peace and harmony. M.-Nr. 9.917.260

NATURE - floral aroma and natural, well-balanced fragrance. M.-Nr. 9.917.250

Fragrance to suit your individual taste - lasting for weeks and completely automatically¹⁾

The fragrance flacon is simply fitted into a holder on the easily accessible fluff filter and distributes a pleasant fragrance evenly onto your laundry. By turning the flacon you can determine the intensity of the fragrance.

For an ultimate freshness experience after each drying cycle!

¹⁾ One fragrance flacon for approx. 50 drying cycles.

For best cleaning results

Miele detergents designed for Miele dishwashers

Simply perfect laundry care

Dishwashing programmes of different dishwasher manufacturers vary significantly nowadays. That is why not all off-the-shelf detergents deliver the same results on all dishwashers.

For this reason Miele offers detergents specifically designed for Miele dishwashers. These detergents were developed in Miele's own in-house laboratories in cooperation with selected quality suppliers. All formulations are perfectly geared to Miele dishwashers and their special dishwashing programmes. They contain only chemicals which are indispensable. Miele tablets for example are completely phosphate-free.

Miele dishwashing detergents and cleaning products allow you to tap the full potential of your Miele dishwasher and reduce the burden on the environment at the same time.

The perfect interaction of detergent and dishwasher: spotless and sparkling results every time.

Riedel exclusively recommends Miele

Can you really wash delicate, expensive wine glasses in a dishwasher? Yes, perfectly, as long as it's a Miele! With a unique combination of intelligent appliance features and Miele detergents.

Miele is THE specialist when it comes to gentle care of glassware.

The results are spotless, sparkling glasses without the need for polishing. After numerous wash cycles, your valuable glassware will look as good as new. Even high-quality delicate stemware can be washed in a Miele dishwasher using Miele detergents - without any risk. This has been confirmed by Riedel, manufacturer and originator of fine wine glasses. Georg Riedel recommends Miele for washing Riedel glasses (hand-blown and machine-blown).

Sparkling finish and best care for your delicate glassware

The best way to clean crockery perfectly

Perfect cleaning results, even in the face of stubborn soiling

Dishwasher detergent, rinse aid and salt

Top care for many years of reliable service

Care products for Miele domestic appliances

Miele domestic appliances are characterised by their first-class quality, high performance and timeless design. Miele offers care products that take good care of your Miele machines. These products were developed and tested in Miele laboratories in cooperation with selected manufacturers.

Using care products from Miele ensures that your valuable Miele appliances do not suffer damage and stay looking new for longer. This care and attention also supports the perfect functioning of your domestic appliances over many years.

Optimum care of your Miele appliances

Dishwashers

Perfect results can only be achieved in hygienically clean appliances. It is therefore important to remove any greasy deposits and limescale. For this purpose, Miele offers a cleaning and a descaling agent. These products, specifically formulated for Miele dishwashers, guarantee hygienically clean results, even on older machines.

Built-in kitchen appliances

Persistent stains are often unavoidable during kitchen work. In order to completely remove them, and at the same time guarantee that surfaces are not damaged and stay looking as good as new, the choice of the correct cleaning agent is important. That is why Miele offers specially formulated cleaning and care products for your Miele kitchen appliances. These products make the thorough cleaning of appliances child's play.

Washing machines

If you would like the laundry in your Miele washing machine to always be perfectly clean, the machine should be subject to thorough cleaning at regular intervals to ensure that the machine works perfectly even after many years. With Miele cleaning agents for washing machines, any deposits are removed without trace. This treatment ensures the optimal performance of your machine.

Care products for Miele domestic appliances

Descaler 250 g

Rids dishwashers and washing machines of harmful scaling.

- Mild and gentle thanks to natural citric acid
- Gentle on heater elements, drum and other components
