

# Simply Breathe Easy

Miele Floorcare

Welcome to Miele

## IMMER BESSER (forever better) – our pledge

When our two great grandfathers were in the process of founding the Miele company, they had to make sure they stood apart from the competition in order to be successful. There are effectively only two ways of doing this: either by being cheaper than the rest or by being better than the rest. It is not really possible to be both at the same time.

They decided to be “better“ than the rest.

Numerous best in class awards and certificates attest to the fact that Miele has continued to renew its commitment to being “immer besser“ throughout the past 115 years. However, the millions of satisfied customers around the world are perhaps the most important endorsement.

At the heart of this success lies a continuity of values and goals which are typically only found in companies which have been family-run for generations, rather than in businesses which are guided by the often short-term interests of the stock market.

It is in this sense that Miele has embodied first-class product quality and German engineering since 1899. Miele also stands in equal measure for respect, fairness and mutual esteem towards sales partners, customers, suppliers, employees and neighbours. Buying a Miele is an environmentally friendly decision. We ensure this by using methods of production that save resources as well by producing products which set new standards in terms of their consumption of electricity, water and detergent – and save you money at the same time.\*

As directors and co-proprietors of the fourth generation of our business we promise you that this will not change.

Dr. Markus Miele

Dr. Reinhard Zinkann

\* Please visit [www.miele-sustainability.com](http://www.miele-sustainability.com) for more information on our efforts and guiding principles

# IMMER BESSER

## Our brand promise

### **There are many good reasons for choosing Miele.**

Here are just six of them.

Since the company was founded in 1899, Miele has remained true to its 'Immer Besser' brand promise. This means that we will do all that we can to be 'forever better' than our competitors and 'forever better' than we already are. For our customers this means the peace of mind of knowing that choosing Miele is a good decision – and probably the decision of a lifetime!

### **The Miele brand**

In many countries, Miele is the most desired brand in its field. In its German home market, Miele was voted 'best brand ever' in 2013 across all product branches. And the ownership of products from such a brand reveals much about its users: Miele customers have high expectations for the performance, convenience, design and the environmental friendliness of their domestic appliances. People who buy Miele are quality conscious and have style!

### **Miele quality**

For more than 100 years it has been a proven adage that you can trust Miele and rely on our appliances. We are the only manufacturer in our branch of industry to test products such as our washing machines, tumble dryers, dishwashers and ovens to the equivalent of 20 years' usage. Once a Miele, always a Miele: Miele customers around the world remain loyal to Miele and recommend Miele to others. Looking to the future, we promise not to entertain any compromises when it comes to quality and durability!

### **Miele technology**

Miele stands for excellent results combined with the lowest possible energy consumption. This goes for the hygienic and gentle care of your laundry, your flooring and your crockery as well as when conjuring up exquisite culinary delights. The key to this is a wealth of innovative features available only from Miele. This is borne out by numerous first places in leading product tests conducted around the world.

### **Miele convenience**

Whether conventional rotary switch, discreet sensor controls or a high-resolution touch screen like the one on your smartphone: operating a Miele is both easy and fun. Add to this a multitude of convenient and reliable automatic programmes and a great love of detail - success is guaranteed - on board both laundry and kitchen appliances. Make life easier for yourself with Miele!

### **Miele design**

Miele believes in clean lines and timeless elegance. Nowhere else will you find such a comparable range of built-in kitchen appliances, with consistency in Design lines and colour options, to suit the most diverse of interior designs and kitchen furniture fronts. Great care is taken to coordinate appliance design across the range. Whatever the style of your kitchen: Miele is the perfect match.

### **Miele service**

Miele customers enjoy preferential treatment: thanks to our fast and efficient after-sales service operation which has been voted best in its branch of industry many times over. Even if you need personalised instructions on appliance use or professional cleaning of your machines, Miele will gladly make a home visit. We will always be there for you. That's a promise!

## Design

### **Award winning design**

Feel the luxurious quality of the materials and workmanship. See how aesthetic design unites with perfect handling. Hear how quietly and reliably the vacuum cleaners work. The Miele design wins many awards with product designs and functions convincing down to the very last detail. From Red Dot award to International Design Forum's iF Gold Award, Miele has been occupying top positions year after year at international design awards.

### **Perfection in form**

Since 1970, Miele's brand recognition concept for all machines has been developed at the Miele Design Centre in Gütersloh, Germany. With great passion, in-house product designers ensure the right interaction of technology and design. The result: an attractive, stylish design with clear and simple functions.

### **Elegant**

The innovative light concept and real chrome trim turn Miele's S8 UniQ vacuum cleaner into a real jewel. Choose your favourite from the wide range of S8 casing colours.

### Attuned to living!

Clean lines and unique surface finishes form the attractive shell for the first-class cleaning performance of Miele's S6.

product  
design

2011

### Dynamic

The Miele S2 series is characterised by its prominent lines, large foot controls and many practical features. The innovative construction of the S2 makes floorcare easy to handle.

### Innovative

The Miele S8 vacuum cleaner sets new standards in floorcare. Unique design, exceptional hygiene and convenient controls.

With the S8 UniQ, Miele offers a unique vacuum cleaner that combines all the innovative features in one appliance. Assure yourself of the perfect design and the refined extras.

# Vacuum Cleaners

What makes Miele vacuum cleaners so unique?

Miele vacuum cleaners offer an optimum combination of excellent cleaning performance, unique convenience, outstanding hygiene standards and first class quality.

**Cleaning performance:**  
**achieving best results with efficiency.**  
A high performance motor alone does not make a good vacuum cleaner. Miele vacuum cleaners combine a bundle of features efficiently with outstanding results. A dust-tight casing and streamline airflow through all components are essential in ensuring that the power of the motor is converted into suction performance at the floorhead.

The AirTeQ floorhead is Miele's most efficient floor head, delivering the very best cleaning results even on lower power settings.

**User convenience:**  
**vacuuming made easy?**  
**Yes, with Miele.**

Miele has developed a multitude of features to make floor care as easy as possible for you. For example the convenient handle controls, with which you can regulate suction power with the touch of a fingertip. No more tiresome bending.

**Hygiene:  
the AirClean filter system**

The outstanding filtration of Miele vacuum cleaners is the result of a filtration system consisting of up to 12 layers. It consists of the innovative Miele HyClean dustbag, a motor protection filter and a Miele exhaust filter. The way these components complement each other ensures that more than 99.9% of fine dust is filtered out. You can take deep breaths again!

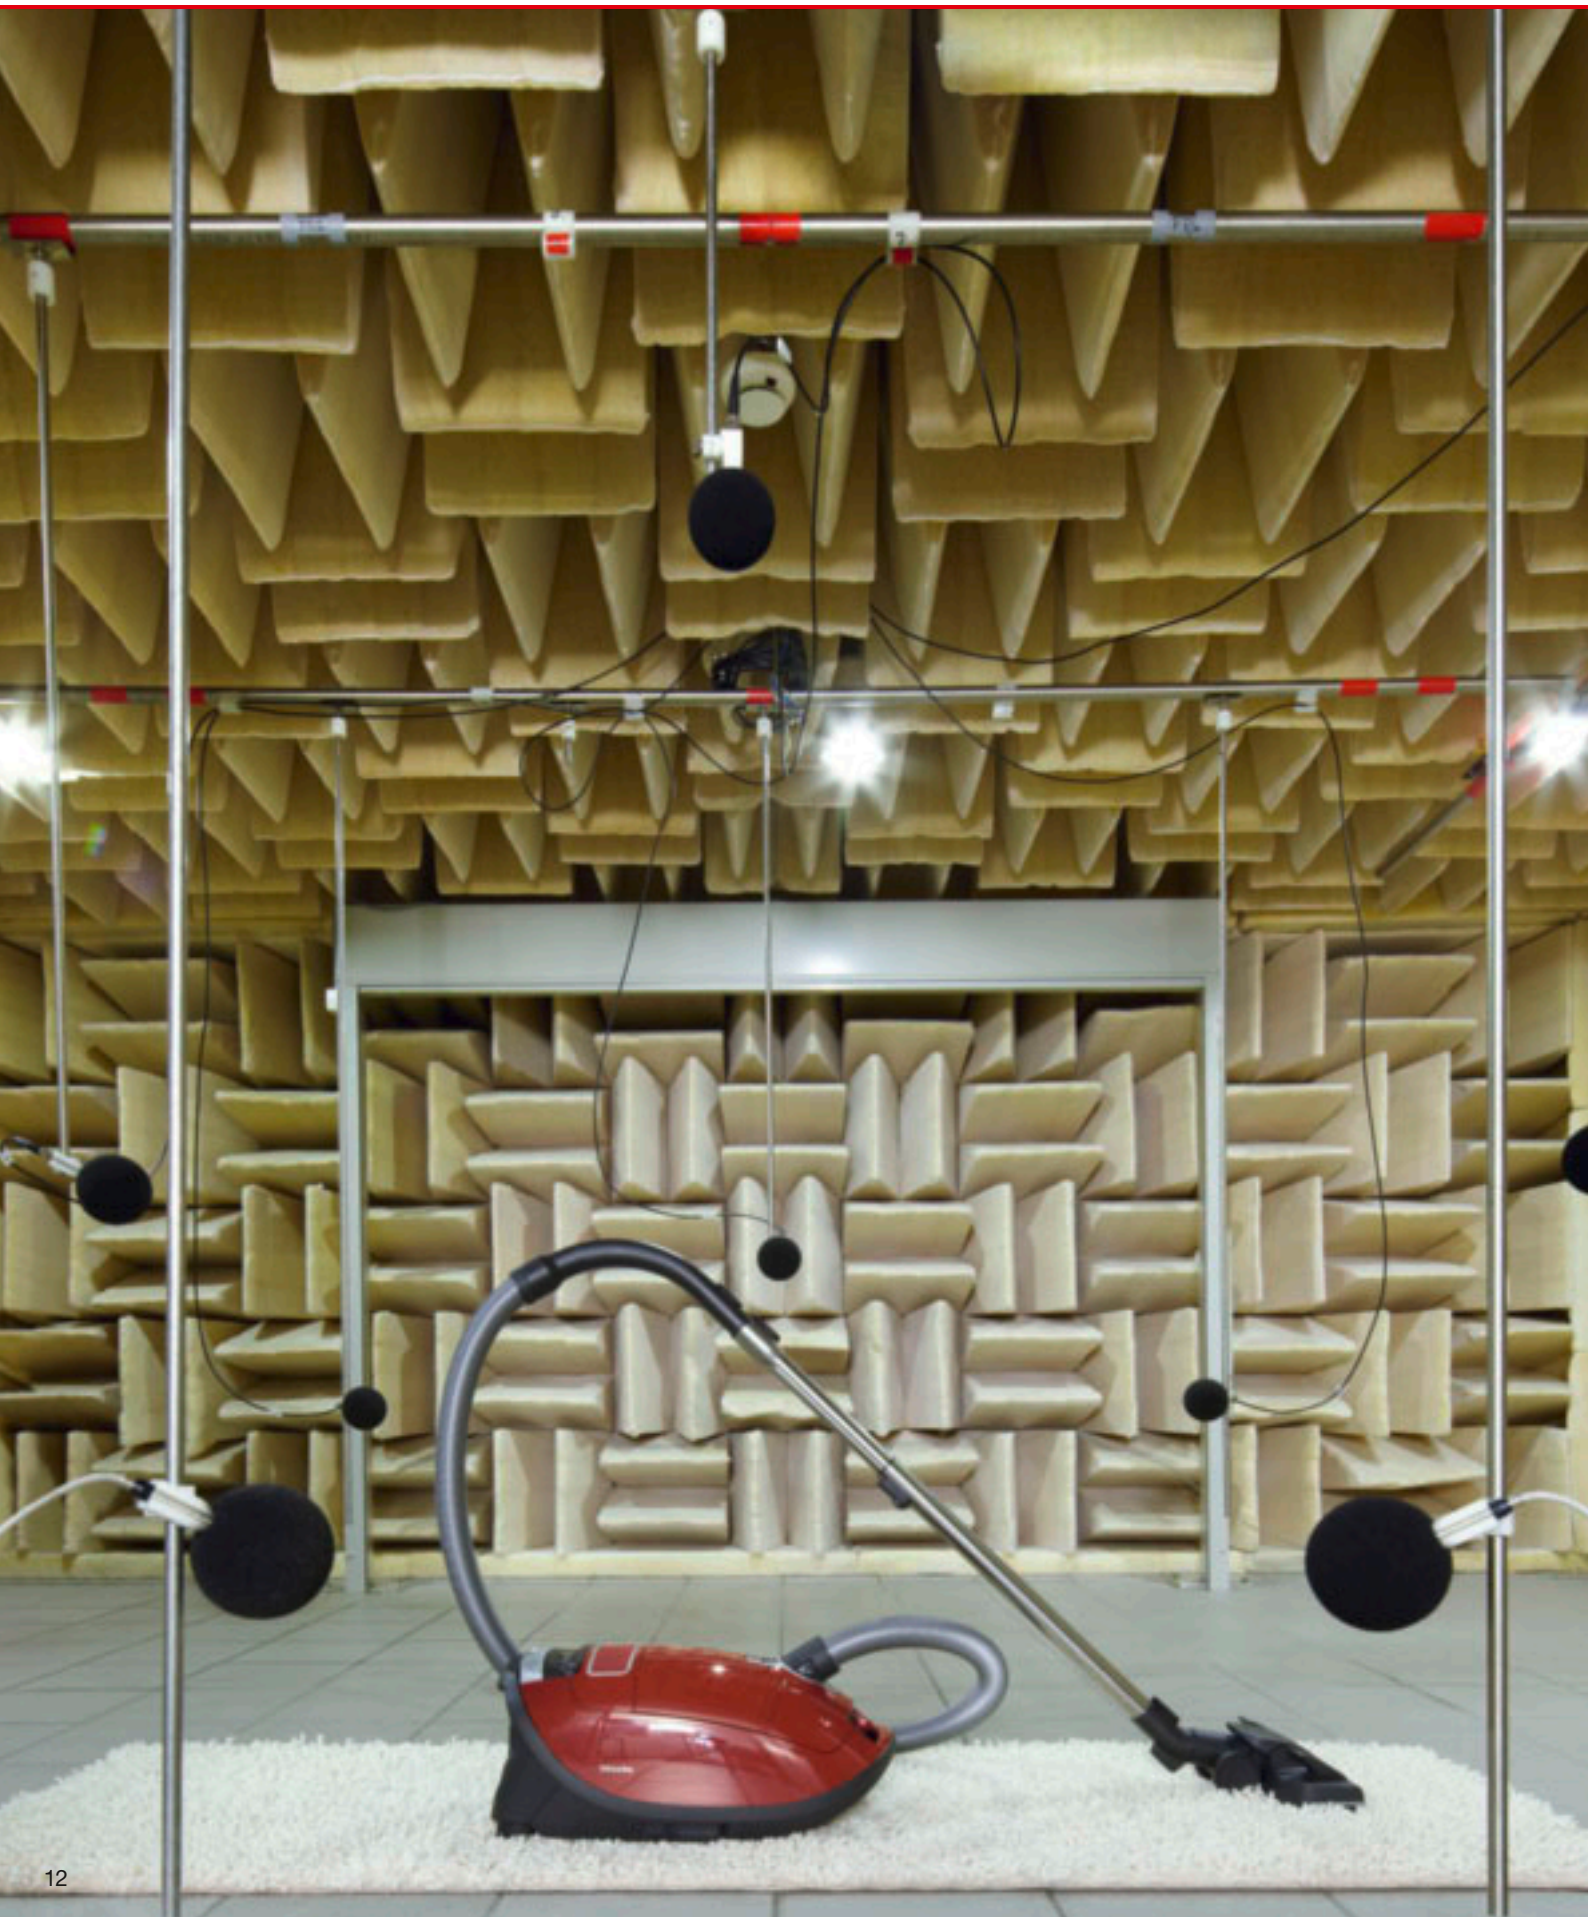

**Quality:  
100% controlled!**

Quality is Miele's highest priority, from design to finished product. Miele vacuum cleaners are exclusively designed and manufactured in Miele's own plants. At the end of the manufacturing process and assembly, every vacuum cleaner is thoroughly tested again to ensure perfect functioning. This thoroughness is one of the ways in which we at Miele achieve excellent quality and highly durable products.

# Vacuum Cleaners

## Quality Tests

### Tested to the equivalent of 20 years usage\*

\*Equates to an average use of 45 minutes per week at maximum power.  
Terms & conditions apply, refer to [www.miele20years.com.au](http://www.miele20years.com.au)

Prior to series production, Miele vacuum cleaners undergo rigorous stress and endurance testing in our very own laboratories:

#### The motor endurance test: very enduring!

We expect top-notch cradle-to-grave performance from our vacuum cleaners: in an intensive endurance test, with the appliances being constantly switched on and off, Miele motors must prove that they are made to last.

#### The jamb/threshold test: very robust!

In real life, Miele vacuum cleaners are subjected to many knocks and obstacles that they have to move over during vacuuming – in this test, they have to endure this strain 16,500 times without interruption. Miele casings and rollers prove their durability.

#### The cable rewind test: very reliable!

The cable reels are unwound and rewound more than 10,000 times in our test centres. Only then are we satisfied and completely certain of problem-free functioning in your home.

#### The hose test: very resilient!

Miele suction hoses are twisted, bent and stretched with a 5 kg weight 120,000 times in the laboratory, so you can pull your Miele vacuum cleaner along behind you without any risk of damage.

#### The floorhead test: very hard-wearing!

A Miele floorhead must master 2000 km of various types of floor coverings, that is as far as Melbourne to Sydney and back. They also cross a carpeted door threshold 60,000 times.

#### The handle test: very indestructible!

Miele vacuum cleaner handles are hung with 5 kg weights and lifted and lowered 120,000 times. The handle must survive leverage forces completely damage-free.

# Vacuum cleaners

Miele Hygiene

## Tangible cleanliness

### The right dustbag? Simple!

It is often not easy to find the right dustbag for a vacuum cleaner, but with Miele, you can easily identify the correct genuine HyClean dustbag by the colour of the dustbag collar.

### Top-class suction power

Thanks to the nine finely graduated filter layers, the Miele HyClean bag remains air-permeable, even as it fills. This ensures undiminished suction power for longer. The appliance display indicates when the dust bag and filter need to be changed, for constant performance and hygiene just like on the first day.

### Miele vacuum cleaners remain airtight

Miele recommends vacuum cleaners with a HEPA filter fitted as standard for those allergic to domestic dust.

Some Miele cylinder vacuum cleaners with Active HEPA filter have also been recommended for allergy sufferers by the TÜV Nord, a German material testing institute. Due to its special air-tight casing seal, not only the exhaust filter but the entire appliance fulfils the EN 1822/1998 European standard. The air discharged from the vacuum cleaner is cleaner than ambient room air. And bacteria, allergens and fungal spores remain safely in the dustbag.

### Last 25% longer

The special-purpose random-spun fibre retains large amounts of fine dust. Air guides distribute dust evenly throughout the dustbag. This is why HyClean dustbags can be used approximately 25% longer than conventional random-spun dustbags.

### Hygienic dust disposal

Miele ensures that you don't need to come into contact with vacuumed dust. As soon as you open the vacuum cleaner, the HyClean bag closes automatically. The protective netting prevents the bag from bursting, even if you have vacuumed up sharp items.

### Masterly fine work

Choose from three different Miele air filters:

#### Air Clean filter:

Effective filtration for everyday requirements.

#### Active Air Clean filter:

Also neutralises unpleasant odours - ideal for pet owners.

#### Active HEPA filter:

Filters even the finest dust and allergens – ideal for those allergic to house dust.

\* Features depend on model

# Vacuum Cleaners

Perfect Solutions

## Tailor-made solutions for your requirements

Special types of houses and lifestyles require individual solutions. To fulfil your specific needs perfectly, Miele offers a variety of vacuum cleaner models specially equipped for all eventualities.

With Miele optional accessories you can be sure that your vacuum cleaner will always match your lifestyle and conditions, today and tomorrow.

### For all animal lovers: the Cat & Dog

With its turbobrush, the Cat & Dog reliably removes hair and fluff from carpets and upholstery. And to prevent unpleasant odours from spreading, they are effectively neutralised by the Active AirClean filter.

### For all types of floor surfaces: Total Care

With comprehensive accessories, the Total Care solves just about every cleaning problem – a true all-rounder. The Active Air Clean filter reliably neutralises unpleasant odours from the dustbag.

### For Hard Floors: Hard Floor Specialist

Thanks to the hard floor tool specially designed for efficient cleaning of hard floor surfaces is perfect for homes with a combination of carpet, tiles & timber.

### Quiet and space-saving: Silent & Compact

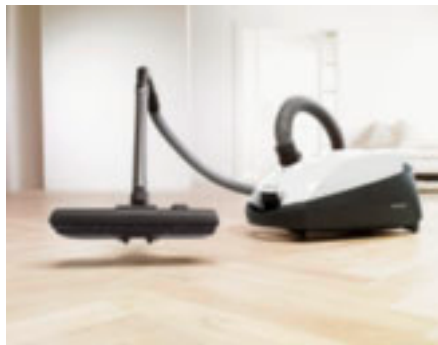

The Silent & Compact is one of the quietest vacuum cleaners within the Miele range. Thanks to the innovative compact system it can be stored in particularly small spaces.

# Vacuum Cleaners

The Range

Miele vacuum cleaners come in a variety of sizes with different features. One thing they all have in common is exceptional Miele quality!

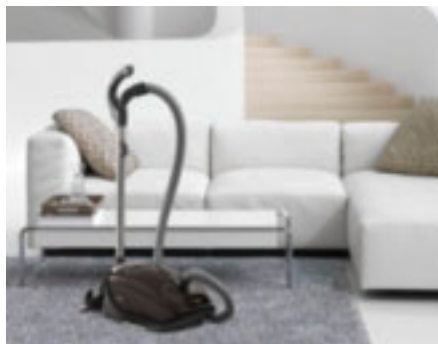

**S2 - light and efficient**

- Approx. 5.8 kg (including accessories)
- 9 m operating radius
- 4.5 l dustbag capacity
- 1600 W maximum motor output
- Rotary dial controls
- Accessories on Varioclip

**S6 - light, convenient, compact**

- Approx. 5.8 kg (including accessories)
- 10 m operating radius
- 3.5 l dustbag capacity
- 2000 W maximum motor output
- Rotary dial controls
- Accessories on Varioclip

**S8 - Individual, powerful, unique**

- Approx. 7.1 kg (including accessories)
- Up 11 m operating radius
- 4.5 l dustbag capacity
- 2200 W maximum motor output
- +/- Footswitch or handle controls
- One-Touch Cable Rewind
- Models with Automatic setting
- Integrated accessories

**S1 - versatile and manoeuvrable**

- Approx. 4.6 kg (including accessories)
- Up 9 m operating radius
- 2.5 l dustbag capacity
- 1400 W maximum motor output
- Ergonomic handle with anti-slip stopper
- Modular design
- Accessories on Clip

# Vacuum Cleaners

## Controls

Recommendation: for best cleaning results and easier manoeuvring of the floorhead, always ensure that the suction power is appropriate for the floor covering

#### **6-stage control dial**

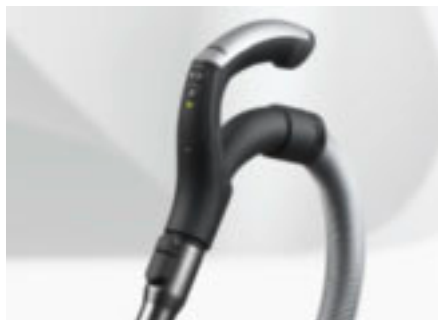

Electronic suction power regulation is controlled via a 6 –stage dial. Graphic symbols for different floor covers help you select the most suitable power setting.

#### **Plus/Minus foot controls**

Ergonomic controls dispense with the need to stoop or bend. Here, too, the graphic symbols assist you in selecting the most suitable power setting for your floors.

Particularly convenient: the Automatic setting makes the correct setting decision for you.

#### **Electronic handle controls with Automatic setting**

The vacuum cleaner can be switched on and off, and power setting selected at the touch of a fingertip. The selected power setting is displayed on the appliance. Particularly convenient: the Automatic setting makes the correct setting decision for you.

# Vacuum Cleaners

## Highlights

### Miele cylinder vacuum cleaner highlights

#### Clever automatic setting

Vacuum cleaners with Automatic setting adapt the suction power automatically to the floor surface.

- Optimum cleaning results
- Convenient
- Energy saving
- Gentle

**Exclusive to Miele**

#### The Miele Comfort handle

The flexible suction tube attachment allows ergonomic, comfortable handling. Thanks to the lever action, the floorhead is more manoeuvrable.

- Reduces strain on the wrist
- Increases convenience

#### Silence System / Silence System plus

A noise-optimised motor and integrated sound-proofing make Miele vacuum cleaners pleasantly quiet.

- Silence setting: lowest noise emission levels without compromising on cleaning performance
- Silence System plus: extra quiet due to encapsulated motor and noise-optimised AirTeQ floorhead

**Exclusive to Miele**

#### Convenient cable rewind with one-touch function

All Miele vacuum cleaners have convenient foot switch-controlled cable wind.

- No more bending
- S6 and S8 comes with one-touch function: wind the whole cable with a single touch of a button

**Exclusive to Miele**

#### Compact system

With the advanced Compact system, Miele cylinder vacuum cleaners are extremely light and easy to store.

- Park System on both sides

**Exclusive to Miele**

#### DynamicDrive castors: As manoeuvrable as a sports car

The unique DynamicDrive castors rotate 360°, have steel axles and feature shock absorbers. The rubberised wheels glide smoothly and are wear-proof. Advantages:

- Extremely easy to manoeuvre
- Robust and durable
- Extremely smooth-running and quiet
- Gentle on floors

Features depend on model

## User Convenience

### Handle with metal anti-static discharge device

All Miele vacuum cleaners feature a metal thread integrated into the underside of the handle which functions similar to a lightning conductor. This prevents electro-static discharge between appliance and user.

### Exclusive to Miele Two-sided Park System for storage

Suction tube and hose can be attached securely to either side of the upright appliance.

- Easy to transport
- Space-saving
- Convenient for left- and right-handers

### Park System for breaks / with automatic deactivation

Simply slot the floorhead into the back of the vacuum cleaner, the suction tube is conveniently ready for use until cleaning re-commences. Reduces the need to bend.

## Design, Quality & Safety

### Exclusive to Miele Attractive finishes

Many years ago Miele was the first vacuum cleaner manufacturer to offer metallic coatings – and has since advanced to become the innovation leader for surface finishes. Discover our vacuum cleaners with Metallic or Pearl Finish!

### Gentle-start motor

Miele vacuum cleaners start gently and build up gradually to the selected power level.

- Protects the circuit from overloading

### Furniture protection strip

Miele's S8 feature an all-round bumper strip which protects furniture and appliance in case of accidental collisions.

# Vacuum Cleaners

Miele S8 UniQ

## What additional advantages does the Miele S8 UniQ offer?

### The Miele S8 UniQ – The best vacuum cleaner we have ever built.

The S8 UniQ offers the following features:

- +/- footswitches with Automatic Setting
- Silence System plus
- DynamicDrive castors – only from Miele
- Active HEPA filter
- AirTeQ floorhead – exclusive to Miele

Additionally, Miele's S8 UniQ sports the following innovations:

**Exclusive to Miele**

#### ComfortHandle with Spotlight

Illuminates every nook and cranny: handle with integrated power LED. After pressing the light button gently, the light continues to shine for 30 secs. and slowly fades automatically.

- Illuminates the area ahead of the floorhead
- Makes vacuuming dark areas easy

**Exclusive to Miele**

#### Illuminated Park System

Evident convenience: the two-sided Park System on the S8 UniQ features maintenance-free LED lighting. They shine during vacuuming and for 30 seconds after the appliance has been switched off.

- Elegant carpet of light
- Easy insertion of floorhead into the Park System
- Easy to store in dark cupboards or corners

**Exclusive to Miele**

#### Velvet furniture bumper strip

The all-round bumper strip on the S8 UniQ is made from soft, velvety material. Thanks to its bowed shape, it protects furniture from the entire appliance.

- It protects furniture and appliance in the event of accidental collisions
- Glides particularly effortlessly past obstacles

**Exclusive to Miele**

#### Velvet accessory compartment

The S8 UniQ accessory compartment features a velvet surface finish. Here, crevice nozzle, upholstery nozzle and dusting brush with soft bristles are stored dust-free.

- Pleasantly soft to the touch when removing and returning accessories
- Perceived high quality
- Readily available on-board accessories

#### Chrome trim

Apart from foot switches, the connector for the suction hose and the frame around the vent grille also feature high-quality chrome plating.

- High-quality design
- Tangible solid surface

# Vacuum cleaners

## Mini Upright highlights

## Compact and convenient

### Easy to manoeuvre

The slim body and an extra low centre of gravity makes the vacuum cleaner easy to manoeuvre. The metal footplate glides smoothly around the smallest and most densely-furnished apartments.

**Exclusive  
to Miele**

### Ergonomic double side switch

Positioned on a corner, the switch is always easily accessible and the power setting visible at a glance. This is particularly handy when the wand and handle is removed, and the machine used as a hand-held vacuum cleaner.

### Adjustable power setting

Suction power is selected using a MIN/MAX adjustable slider switch. Suction power can be adjusted to the floor type which ensures excellent cleaning performance and allows the vacuum cleaner to glide easily.

### Large operating radius

The Miele mini upright allows vacuuming of large areas without the hassle of changing sockets with an operating a radius of up to 9 m.

### Stainless steel telescopic tube

At the push of a button, Miele telescopic suction tubes can be easily adjusted to the height of the user. This is convenient and gentle on backs.

Hint: To reach underneath furniture, the tube can also be fitted to the lower part of the vacuum cleaner.

### Versatile Handle

The ergonomically designed handle features an integrated anti-slip stopper which enables the appliance to lean safely against a wall or door. The handle also comes with a grommet allowing it to be stored neatly on a hook.

# Vacuum Cleaners

Symbols at a glance!

## What do the symbols mean? – All symbols at a glance!

99.9% filtration: particularly effective filtration thanks to the AirClean System with HyClean dustbags and AirClean exhaust filter

Appliance recommended for allergy sufferers: filters out particle sizes which cause particular problems to allergy sufferers.

Certified hygiene: the air which is released by the vacuum cleaner is cleaner than room air. Bacteria, allergens and fungal spores remain safely in the dustbag.

Air Clean filter: effective filtration for everyday use

Active Air Clean filter: a special filter that neutralises unpleasant odours

Active HEPA filter: maximum air hygiene and odour neutralisation with an active layer of charcoal. Recommended for allergy sufferers.

Lifestyle Cat & Dog: the perfect partner for pet lovers; removes unwanted hair and odours.

Lifestyle TotalCare: a solution for all your vacuuming needs

Lifestyle Silent & Compact: particularly quiet and space saving

Silence System plus: extra quiet due to encapsulated motor and noise-optimised AirTeQ floorhead

Convenient cable rewind with one-touch function: the entire length of cable is rewound at the single touch of a button

Compact system: for space-saving storage of vacuum cleaner

DynamicDrive castors: casters on shock absorbers are particularly smooth-running and quiet

13 m operating radius: from wall socket to floorhead

MetallicFinish: multi-coat lacquer with metallic effect

PearlFinish: multi-coat lacquer with mother-of-pearl sheen

Comfort handle with spotlight: illuminates the area ahead of the floorhead perfectly

Velvet furniture bumper strip: velvety-soft furniture bumper strip protects appliance and furniture

Comfort Twister: easily manoeuvrable thanks to unique swivel joint

## Original Miele Accessories

Five good reasons to buy original Miele accessories

### **Cleaning performance**

Original Miele accessories are designed to complement your vacuum cleaner, supporting the efficient passage of air to deliver optimum performance.

### **As individual as you are**

The large and varied range of accessories allows you to customise your vacuum cleaner to your exact requirements (e.g. for special floor surfaces).

### **Quality and safety**

Miele accessories undergo the highest degree of stress and durability tests. Just like our vacuum cleaners, they are tested to the equivalent of 20 years usage (equates to an average use of 45 minutes of vacuuming per week at maximum power).\*

### **Gentle cleaning**

Using original Miele accessories your floors and furniture are cleaned gently and carefully, yet extremely thoroughly.

### **Hygiene**

The Miele Air Clean filter system provides the highest standard of hygiene. An Active HEPA filter offers up to 12 layers of filtration, making the exhaust air cleaner than the ambient room air.

**ORIGINAL**

## Hard Floor brushes

### For more robust hard floors: Miele Hard Floor Brush

This tough floorhead sweeps the fine dust out of the joints and grooves - ideal for tiles and other structured hard floor surfaces.

#### SBB 235 Hard Floor brush

Specially designed for tiled and other structured hard flooring (including slate), this floorhead has tough & high-quality bristles brush dirt out of gaps.

EAN: 40 02514 46649 1

#### SBB 300-3 HardFloor Twister

- Specially designed brush designed for optimum dust uptake from hard and structured floors, including timber floors. The tough & high-quality bristles teases dirt out of gaps.
- The flexible joint on this floorhead allows access to the tightest of corners
- Width of 31cm makes light work of larger areas

EAN: 40 02515 36020 0

## Turbobrushes

### Ideal for pet owners:

#### Miele Turbobrushes

The Miele turbobrush, with its independently-driven roller brush, ensures a reliable removal of threads, fluff and hair and thorough cleaning. Turbobrushes can be used with almost any Miele vacuum cleaner.

#### STB 205 TurboBrush

Air-powered rotating brush loosens dirt and picks up threads, hair & fluff. The roller brush is swing-mounted to deliver gentle and thorough cleaning.

EAN: 40 02514 46746 7

#### STB 101 Mini TurboBrush

Convenient handheld TurboBrush is perfect for removing the most persistent fluff & pet hair from upholstery, mattresses or stair carpets. Suction width 16 cm

EAN: 40 02512 30842 7

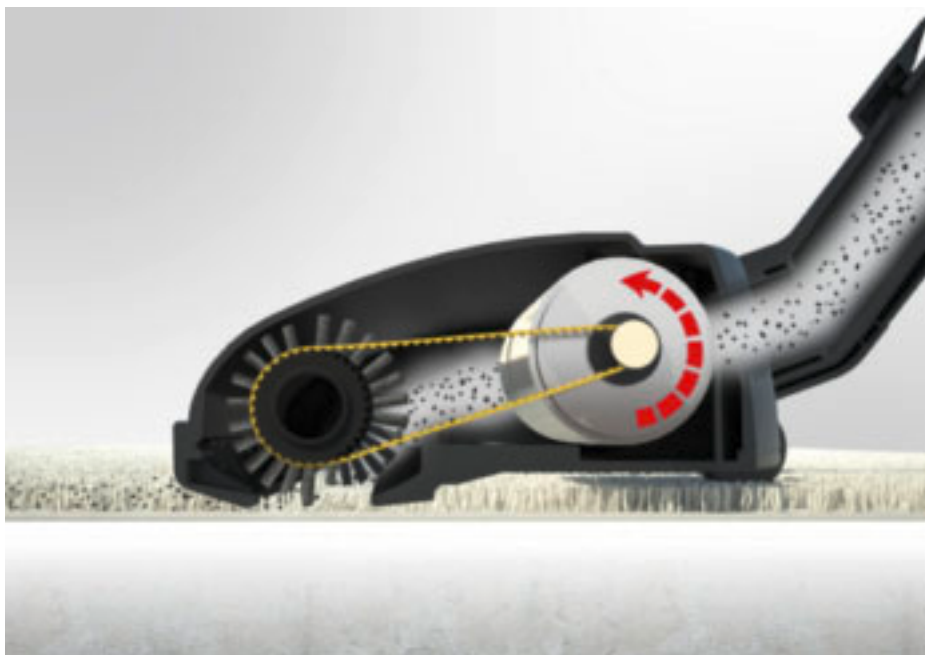

#### STB 20 Compact TurboBrush

Compact design and unique flexible joint is extremely useful for accessing tight spaces. Perfect for removing the most persistent fluff & pet hair from upholstery or car interiors. The coarse dirt edge helps get rid of persistent soiling. Suction width 8 cm

EAN: 40 02514 83599 0

# Vacuum Cleaners

## Electrobrushes

### Extra power – the Miele electrobrushes

Miele electrobrushes have a motor driven brush which rotates evenly and powerfully, making them extremely suitable for deep-seated soiling in robust, heavily used rugs and carpets. They also have improved pick-up of threads, hair and fluff and bring the carpet pile back up, preventing “tracks” being worn into the carpet.

Electrobrushes are connected by direct contact to electro-accessories or by Clipcable. Your Miele dealer will be happy to advise you.

## Special accessories

### MicroSet SMC 20

Ideal for cleaning small objects & intricate surfaces such as PC keyboards, hi-fi systems, model railways, etc. Includes micro hose with combi nozzle, micro crevice nozzle & micro dusting brush.

EAN: 40 02515 01076 1

### SFS 10 flexible hose extension

Adds an extra 1.5m of cleaning reach to your Miele vacuum cleaner. Ideal for vacuuming stairs and car interiors. Fits between handle and suction tube. Compact storage.

EAN: 40 02514 46756 6

### SUB 10 Universal Brush

Long & soft synthetic bristles ideal for sweeping dust off bookshelves, venetian blinds and other vertical surfaces.

EAN: 40 02514 46757 3

### SHB 20 Dusting Brush

Particularly convenient for dusting of window blinds (including venetian blinds), vent grilles, air-conditioning units, radiators and other difficult to access areas. Can be attached to Crevice Nozzle for blinds.

EAN: 40 02515 09388 7

#### **SFD 10 Extra long crevice nozzle**

Extended crevice nozzle to reach and clean narrow gaps, e.g. between cupboards or in a car. Ideal for cleaning the fluff filter in the tumble dryer. 30 cm operating radius.

EAN: 40 02514 46747 4

#### **SFD 20 Flexible crevice nozzle**

Extremely flexible 56cm nozzle for inaccessible corners and crevices. Ideal for cleaning behind cupboards, underneath furniture or car seats.

EAN: 40 02514 46754 2

#### **SPD 10 Upholstery nozzle**

Ideal for fast & thorough cleaning of upholstery and mattresses, with extra wide nozzle. Approximately 19 cm wide.

EAN: 40 02514 46755 9

#### **SMD 10 Mattress Nozzle**

Perfect for removing those nasty 'bed bugs' and awkward gaps between the bed frame & mattress. Also suitable for cleaning between seat cushions.

EAN: 40 02514 46758 0

## Exhaust filters

Clean the floor and the air at the same time!

A Miele vacuum cleaner fitted with a genuine Hyclean dustbag and an Active HEPA filter, traps 99.9% of the dust particles leaving air exiting the vacuum cleaner purer than ambient room air.

Miele offers three different exhaust filters, which are also retrofittable should your requirements change:

### Stage 1: Air Clean filter

Effective filtration for every day requirements

### Stage 2: Active Air Clean filter

For effective filtration of all unpleasant odours thanks to active charcoal layer. Recommended for households with pets and smokers.

### Stage 3: Active HEPA filter

Perfect air hygiene: filters the finest of dust particles, allergens, pollen, etc. Highly recommended for allergy sufferers.

#### SF-AC 30 AirClean filter

Efficient filtration for normal household requirements.

Note: A new Air Clean filter comes in every box of genuine Miele dustbags.

Suitable for S 200 – S 800, S2, S4, S5, S6, S8 and S7 (Upright) models.

#### SF-AAC 50 Active AirClean filter

A layer of active charcoal retains odours originating from pet hair & dander.

Suitable for all S4, S5, S6 and S8 models.

EAN: 40 02514 45837 3

#### SF-AH 50 Active HEPA filter

Retains the smallest of particles as well as odours for maximum air hygiene.

Suitable for S4, S5, S6 and S8 models.

EAN: 40 02514 45839 7

#### SF-SAC 10 AirClean filter

Suitable for S 140 - S 195 models.

Note: Comes in every box of genuine Miele dustbags.

#### SF-AAC 30 Active AirClean filter

Suitable for S 300–S 800, S2 and S7 (Upright) models.

EAN: 40 02514 45836 6

#### SF-AH 30 Active HEPA filter

Suitable for S 300–S 800, S2 and S7 (Upright) models.

EAN: 40 02514 45838 0

#### SF-H 10 AirClean Plus filter

Suitable for S 140 - S 195 models.

EAN: 40 02514 58383 9

# Vacuum cleaners

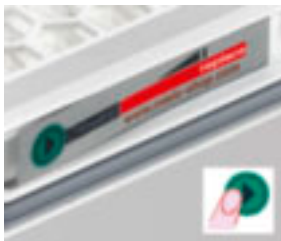

## NEW Improved Exhaust filters (available in 2014)

The NEW Active HEPA and Active AirClean filters will include a TimeStrip®. Upon activation, the TimeStrip® will indicate when a filter needs replacing. Replacing the exhaust filters on a regular basis safeguards the maximum performance of a Miele vacuum cleaner over its entire life span.

### ALL NEW: TimeStrip®

Serves as a reminder to replace the filter. Only a fully functioning (non-saturated) filter can ensure you get the best results from your Miele vacuum cleaner.

### TimeStrip® Activation

Remember to activate the TimeStrip® pressing on the green arrow on the left of the strip when fitting a new filter. After which, rest assured that in approximately twelve months time the word 'Replace' will appear. This indicates that a new filter should be fitted.

### NEW Active Air Clean filter

Includes a new active charcoal filter which not only neutralises odours but also minimises air flow losses, and therefore improving energy efficiency versus the previous version.

### SF-AA 50 Active AirClean filter

A layer of active charcoal retains odours originating from pet hair & dander.

Suitable for all S4, S5, S6 and S8 models.

EAN: 40 02515 31559 0

### SF-AA 30 Active Air Clean filter

Suitable for S 300–S 800, S2 and S7 (Upright) models.

EAN: 40 02515 31558 3

### NEW Active HEPA filter

Contains an extended HEPA filter layer and achieves 99.95% filtration of all fine particles. This offers an extremely high level of protection against the finest air-borne dust particles, pollen and allergens ... leaving air exiting the vacuum cleaner purer than ambient room air.

### SF-HA 50 Active HEPA filter

Retains the smallest of particles as well as odours for maximum air hygiene.

Suitable for S4, S5, S6 and S8 models.

EAN: 40 02515 31701 3

### SF-HA 30 Active HEPA filter

Suitable for S 300–S 800, S2 and S7 (Upright) models.

EAN: 40 02515 31560 6

# Vacuum Cleaners

## Dustbags and Multipacks

### Original Miele dustbags

#### Why use genuine Miele vacuum cleaner dustbags only?

The reason, vacuumed dust should be sealed and trapped inside a dustbag.

The dustbag filters and retains fine dust and allergens inside the dustbag. Genuine Miele dustbags offers 9-ply filtration! This ensures that dust just vacuumed is not released back into the room environment.

Air guides inside the dustbags enable the optimum utilisation of the entire volume. Replacement of dustbags is simple and hygienic! When removing the dustbag, the opening closes automatically. An integrated protective layer of netting prevents the membrane of the bag from ripping, even if sharp items are vacuumed.

This ensures that the motor is safely protected and the dust cannot escape.

### HyClean Dustbag F/J/M - 3.5L

Suitable for S200, S300, S500, S700, S4 and S6 models.

EAN: 40 02515 05596 0

### HyClean Dustbag G/N - 4.5L

Suitable for S400, S600, S800, S2, S5 and S8 models.

EAN: 40 02515 05597 7

### Dustbag K/K - 2.5L

Suitable for S140 - S195 models.

EAN: 40 02515 18024 2

### Maxipack HyClean Dustbag F/J/M

This practical multi-pack includes 4 packets, each with 4 dustbags, a motor protection filter and an Air Clean filter.

Suitable for S 200, S 300, S 500, S700, S4 and S6 models.

Available in 2014.

EAN: 40 02515 20656 0

### Maxipack HyClean Dustbag G/N

This practical multi-pack includes 4 packets, each with 4 dustbags, a motor protection filter and an Air Clean filter.

Suitable for S 400, S 600, S 800, S2, S5 and S8.

Available in 2014.

EAN: 40 02515 20630 0

### Hyclean Dustbag U - 6.0L

Suitable for S7 (Upright) Models

EAN: 40 02514 51608 0
