Welcome to Miele

IMMER BESSER (forever better) - our pledge

When our two great grandfathers founded the Miele company, they had to make sure they stood apart from the competition in order to be successful. There are effectively only two ways of doing this: either by being cheaper than the rest or by being better than the rest. It is not really possible to be both at the same time.

They decided to be "better" than the rest.

Numerous best in class awards and certificates attest to the fact that Miele has continued to renew its commitment to being "immer besser" (forever better) throughout the past 115 years. However, the millions of satisfied customers around the world are perhaps the most important endorsement.

At the heart of this success lies a continuity of values and goals which are typically only found in companies which have been family-run for generations, rather than in businesses which are guided by the often short-term interests of the stock market.

It is in this sense that Miele has embodied first-class product quality and German engineering since 1899. Miele also stands in equal measure for respect, fairness and mutual esteem towards sales partners, customers, suppliers, employees and neighbours. Buying a Miele is an environmentally friendly decision. We ensure this by using methods of production that save resources as well as producing products which set new standards in terms of their consumption of electricity, water and detergent – and save you money at the same time.*

As directors and co-proprietors of the fourth generation of our business we promise you that this will not change.

Markus Miele

"IMMER BESSER" (Forever Better)

Our brand promise

There are many good reasons for choosing Miele.

Here are just six of them.

Since the company was founded in 1899, Miele has remained true to its "immer besser" (forever better) brand promise. This means that we will do all that we can to be "immer besser" than our competitors and "immer besser" than we already are.

Miele quality

For more than 100 years it has been a proven adage that you can trust Miele and rely on our appliances. We are the only manufacturer in our branch of industry to test products such as our washing machines, tumble dryers, dishwashers and ovens to the equivalent of 20 years' usage*. Once a Miele, always a Miele: Miele customers around the world remain loyal to Miele and recommend Miele to others. Looking ahead, our pledge is to not make any compromises when it comes to our dependability and durability!

Miele technology

Miele stands for best-in-class results combined with minimum energy consumption. This goes for the hygienic and gentle care of your laundry, your flooring and your crockery as well as when conjuring up exquisite culinary delights. The key to this is a wealth of innovative features available only from Miele. This is proven by numerous first places in leading product tests conducted around the world.

Miele convenience

Whether using a conventional rotary switch, discreet sensor controls or a high-resolution touch display like the one on your smartphone: operating a Miele appliance is both easy and fun. Add to this a multitude of convenient and reliable automatic programmes and a great love of detail - success is guaranteed - on board both laundry and kitchen appliances. Make life easier for yourself with Miele!

Miele design

Miele believes in clean lines and timeless elegance. Nowhere else will you find such a comparable range of built-in kitchen appliances, with consistency in design lines and colour options, to suit the most diverse of interior designs and kitchen furniture fronts. Great care is taken to coordinate appliance design across the range. Whatever the style of your kitchen: Miele is the perfect match.

Miele Service

Miele customers enjoy preferential treatment: Thanks to our fast and efficient after-sales service operation which has been voted best in its branch of industry many times over. We will always be there for you. That's a promise!

Miele brand

In many countries Miele is the most coveted brand in its branch of industry. On its own home market in Germany, Miele was voted "best brand ever" across all product categories. And the ownership of products from such a brand reveals much about its users: Miele customers have high expectations for the performance and the environmental friendliness of their domestic appliances. People who buy Miele are quality conscious and have style.

What makes Miele vacuum cleaners so unique?

The pillars of Miele vacuum cleaners

Miele vacuum cleaners offer an ideal combination of superior cleaning performance, excellent user convenience, outstanding standards of hygiene and first-class quality.

Cleaning performance:

Powerful: the unique design allows optimum results to be achieved even at a low power setting.

User convenience

Simple: Miele has developed clever technical features to make vacuum cleaning easier for you.

Hygiene

Breathe easy: The multi-stage filtration system ensures air expelled while vacuuming is cleaner than ambient air.

Quality

Guaranteed long lifespan: strict quality checks during the manufacturing process guarantee high standards of quality.

How clean does it have to be to feel good?

Miele vacuum cleaner hygiene*

The right dustbag? It's simple!

It is often difficult to find the right dustbag for a vacuum cleaner. With Miele it's easy: You can recognise the right Original HyClean dustbag by the colour-coded dustbag collar (key-lock principle).

First class suction power

Thanks to the finely graduated filter layers the Miele HyClean dustbag remains permeable to air even as it becomes fuller. The appliance will indicate when the dust bag is full or the exhaust filter is saturated. After replacing the filter, you can enjoy the same level of suction power, cleaning performance and hygiene, as on the very first day.

HyClean 3D Efficiency

The new dustbags provide the highest level of efficiency, even when vacuuming at low power settings due to the SoftStructure surface with minimal air resistance. This enables you to conserve energy when vacuuming without compromising on high cleaning performance.

Dust-free hygienic dustbag replacement

When the vacuum cleaner is opened, the Original Miele HyClean dustbag's collar closes automatically and the vacuumed dust is reliably retained. Fine dust particles cannot escape from the dustbags. Furthermore, the strong protector netting prevents the dustbag from tearing, even when sharp objects such as glass fragments or nails are vacuumed up.

Expert workmanship

You can choose from four different Miele exhaust filters:

AirClean filters:

Effective filtration for everyday needs. >99.9% dust retention capacity¹⁾ in combination with the HyClean dustbag and motor protection filter.

AirClean Plus filter:

Effective filtration for particularly clean room air.

Active AirClean filters:

Reduction of unpleasant odours²⁾ – ideal for pet owners.

HEPA AirClean filters:

Filters even finest dust and allergens – ideal for those with dust allergies. > 99.95% overall dust retention capacity of the vacuum cleaner¹⁾, as well as HEPA 13³⁾

Miele vacuum cleaners are airtight

For people with house dust allergies, we recommend a vacuum cleaner with a HEPA filter fitted as standard. TÜV Nord (environmental testing board in Germany) has also recommended several Miele cylinder vacuum cleaners with HEPA AirClean filters for people with allergies. Due to the special casing seal, the entire appliance meets the requirements of the TÜV Nord. The requirements are reviewed annually by the body. **The filtered and discharged air is cleaner than ambient room air.** In addition, bacteria, allergens and mould spores remain safely in the dustbag.

¹⁾ In accordance with EN 60312-1

²⁾ In accordance with DIN EN 13725

³⁾ In accordance with EN 1822/2011

What features would you like your vacuum cleaner to have?

Customised solutions for every lifestyle

Lifestyle vacuum cleaners

For those who love innovation:
Brilliant

For those who love complete packages:
Total Care

For those who love pets:
Cat & Dog

For allergy sufferers, 99.95% clean air:¹⁾
Allergy

For homes with carpets:
Electro

What type of appliance would you like?

Miele vacuum cleaners

Options to suit your needs

Cylinder vacuum cleaners

A cylinder vacuum cleaner has the classic shape of a sledge and follows you easily through the room thanks to its smooth-running wheels. This allows you to comfortably vacuum large areas.

Stick vacuum cleaners

Due to their compact design, these appliances are ideal for tightly furnished spaces. When vacuuming, the appliance is pushed along in front of the user.

Upright vacuum cleaners

Miele's Dynamic U1 upright vacuum cleaner is the specialist for hard-wearing carpets with a lot of traffic. Like stick vacuum cleaners, they are pushed along in front of you.

Robot vacuum cleaner

Battery-operated robot vacuum cleaners work completely autonomously, even when no one is at home. Thanks to Smart Navigation they are thorough and efficient, even under furniture.

What demands do you place on your vacuum cleaner?

Cylinder vacuum cleaners

Design options

Complete C3 – distinct, powerful, exceptional

- Approx. 7.1kg with accessories
- Up to 12m operating radius
- 4.5L dustbag capacity
- 2,000W maximum power output (Energy efficient model, 800W)
- +/- footswitch or handle controls
- Model/s with Electrobrush available

Compact C2 – light, convenient, compact

- Approx. 6.5kg with accessories
- 10m operating radius
- 3.5L dustbag capacity
- 1,800W maximum output
- Rotary dial control
- Accessories with VarioClip

Classic C1 – light and functional

- Approx. 5.8kg with accessories
- 9m operating radius
- 4.5L dustbag capacity
- 1,400W maximum output
- Rotary dial control
- Accessories with VarioClip

What type of controls do you prefer?

Controls* on Miele cylinder vacuum cleaners

Controls

6 stage rotary selector

Plus/minus foot controls

RF handle controls with Automatic setting

Electronic handle controls

* Features depend on model

Which product features are particularly important to you?

Cylinder vacuum cleaner highlights*

Exclusive to Miele

The Miele Comfort handle

Ergonomic: The floorhead can be easily manoeuvred thanks to the flexible hose connector and prevents wrist strains.

Handy locking system

Nothing comes loose: Floorhead, suction tube and handle lock into each other with an audible fit.

Silence System

Pleasant: our Silence System with noise-optimised motor and integrated sound insulation.

HINT - Select Silence setting for an even quieter cleaning session.

Exclusive to Miele

Comfort cable rewind with one-touch control

Quick and convenient: The entire cable can be rewound by a single tap of the footswitch.

Exclusive to Miele

Compact-System

A true space saver: Floorhead and suction tube can be parked on either side of the vacuum cleaner.

Exclusive to Miele

DynamicDrive swivel castors¹⁾

Protects your floors: Rubberised wheels and swivel castors with shock absorbers ensure a quiet driving experience.

* Features depend on model

What do the icons mean?

Symbols for cylinder vacuum cleaners at a glance

The product overview on the following pages contain details of Miele's cylinder vacuum cleaners, including icons to assist in differentiating the models at a glance.

Here's a glossary of icons.

Motors

Indicates the max. wattage

PowerLine appliance have max. 2,000 W.

Operating radius

Indicates the operating radius, from extended cable to floorhead.

The operating radius of a cylinder vacuum cleaner is up to max. 11 m.

Design

Indicates the key feature of the model.

Integrated accessories:
The three-piece accessory set is integrated in the appliance.

CompactSystem:
Compact assembly and storage of the appliance.

Exhaust filters

Indicates the type of filter used.

AirClean filter:
Effective filtration for daily use.

Active AirClean filter:
Neutralises unpleasant odours¹⁾ – ideal for pet owners.

HEPA AirClean filter:
Retains the finest of particles and allergens.

Controls

Indicates the type of controls installed.

RotarySwitch:
The electronic power control is by a six-stage rotary selector.

FootSwitch:
Suction power is easily selected via the foot controls.

HandleControl:
Suction power is easily selected via convenient handle controls.

Special features

Indicates special-purpose floorheads.

ElectroPower:
With beater bar for intensive cleaning of robust carpets.

TurboPower:
For fast removal of hair and threads, also when cleaning sensitive carpets.

HardFloor Care:
Ideal for effortless cleaning of robust and scratch-sensitive hard floors.

Which product features are particularly important to you?

Stick vacuum cleaner highlights*

Exclusive to Miele

Ergonomic double slide switches

Convenience: Use it as a stick or a handheld vacuum cleaner. The power setting is clearly visible at a glance and the switch is always accessible.

Easy to manoeuvre

Particularly nimble: Stick vacuum cleaners have a slim body and a low centre of gravity.

Easy to store

Slim and smart: Thanks to their compact design Miele stick vacuum cleaners are very easy to store.

Large operating radius

Rarely need to change sockets: Miele stick vacuum cleaners provide an operating radius of up to 9 metres.

Stainless steel telescopic suction tube

Easy on your back: Height-adjustable Miele telescopic suction tubes. Also handy for vacuuming under furniture.

Quick-release cable hook

Handy and tidy: The vacuum cleaner's cable is neatly held in place with cable hooks and is easy to release.

* Features depend on model

What do the icons mean?

Symbols for stick vacuum cleaners at a glance

The product overview on the following pages contain details of Miele's stick vacuum cleaners, including icons to assist in differentiating the models at a glance.

Here's a glossary of icons.

Motors

Indicates the max. wattage

PowerLine appliances have max. 1,400 W.

Operating radius

Indicates the operating radius, from the extended cable to the floorhead.

Stick vacuum cleaners have an operating radius of max. 9 m.

Easy to store

Indicates how space-savingly the appliance can be stored away.

EasyStorage:
The compact design of the appliance allows easy storage.

Exhaust filters

Indicates the type of filter used.

AirClean filter:
Effective filtration for daily use.

AirClean Plus filter:
For particularly clean ambient air.

Controls

Indicates the type of controls installed.

SlideSwitch:

The ergonomic double slide switch is easy to operate at any time. The selected power setting is always visible.

Nimbleness

Indicates the nimbleness of the appliance.

Manoeuvrability:

Due to the low centre of gravity and the slim-line casing, these stick vacuum cleaners are particularly easy to manoeuvre.

Special equipment

Indicates special-purpose floorheads.

ElectroPower:

With beater bar for intensive cleaning of robust carpets.

Which product features are particularly important to you?

Upright vacuum cleaner highlights*

Extra powerful for large areas of carpet

Not many floor coverings create a feeling of comfort like carpeted floors. Miele has developed the Dynamic U1 to ensure proper care. It has the special feature of an integrated roller brush which cleans carpet fibres thoroughly but carefully and restores the pile.

Exclusive to Miele SwivelNeck²⁾

Extremely nimble: The double-swivel joint makes the Dynamic U1 particularly agile and versatile.

Exclusive to Miele Automatic height adjustment¹⁾

Particularly thorough: The electrobrush automatically adjusts to the carpet pile.

Large operating radius

Reduces frequency of plugging & unplugging: Miele upright vacuum cleaners provide an operating radius of up to 14 m.

Flat-to-floor design

The slender body makes it possible: Vacuuming under beds, tables and sideboards is very easy.

Large HyClean dustbag

Saves time and money: The dustbag has a volume of 6 litres thus eliminating constant bag replacement.

A complete range of accessories

Integrated accessories: Upright vacuum cleaners are equipped with an upholstery nozzle, a crevice nozzle and a dusting brush.

Stands for particularly thoroughly cleaned corners.

 **CornerCleaning:**
Reliably finds and cleans corners and edges.

 **SmartNavigation**
Indicates which navigation system is installed.

 **SmartNavigation:**
Reliably navigates right up to room corners.

 **TripleCleaning**
Indicates which cleaning system is installed.

 **TripleCleaning:**
Ensures extremely thorough dust and dirt removal.

 **Non-Stop PowerNon-Stop Power**
Indicates battery capacity.

 **Non-Stop Power:**
Long battery charge - up to two hours (150 m²) without break.

 **Timer**
Indicates start time.

 **Timer:**
Vacuums your home independently at any set time.

 **Furniture protection**
Indicates when an obstacle has been detected.

 **Furniture protection:**
Detects furniture & stairs and avoids collisions or falls.

Accessories for the Miele robotic vacuum cleaner

Convenient vacuuming

For reliable dust pick-up throughout its lifetime

Maintain the cleaning performance of your Scout RX1 with original Miele accessories. Regular replacement of filters and brushes ensures continuous suction and cleaning performance of your robotic vacuum cleaner as well as reliable dust capture. Replacing accessories on your vacuum cleaner is simple and your robot vacuum cleaner will be ready to clean in no time.

Magnetic strip RX-MB 4

Defines parameters of areas for the robotic vacuum cleaner to clean and to establish restricted zones.

- Temporarily or permanently
- For instance, to segregate rooms or carpets
- Contents: 4 x 1 meter magnetic strip, adhesive strip

Material number: 09782660

AirClean filters RX-SAC 1

For trapping & retaining dust and ensuring clean ambient air

- Filtration of dust particles from expelled air
- Motor protection to maintain cleaning performance
- Contents: 4 filters

Material number: 09724050

Magnetic strip

The magnetic strip is a practical aid when necessary to section off particular areas in the home. These could be, for instance, areas the robotic vacuum cleaner is not meant to access.

Side brushes RX-SB 2

For thorough cleaning of edges and corners

- High-quality, robust synthetic bristles
- Suitable for hard floors and short pile carpets
- Contents: 2 brushes (left and right)

Material number: 09724010

Sealing lip RX-DL 1

For effective and reliable dust pick-up

- Attaching on to the robotic vacuum cleaner is a simple process
- Suitable for hard floors and short pile carpets
- Content: 1 sealing lip

Material number: 09782730

Roller brush RX-BW 1

Rotates to remove stubborn dirt

- High-quality, robust synthetic bristles
- Suitable for hard floors and short pile carpets
- Contents: 1 roller brush with bearing and cleaning tools

Material number: 09782630

For perfect and convenient dust pick-up

Genuine Original Miele vacuum cleaner accessories

Perfect dust pick-up

Because every home is furnished differently and individual living situations vary considerably, Miele offers a wide range of vacuum cleaner accessories. This enables you to adapt your Miele vacuum cleaner to suit your personal needs. For example with suitable floorheads and brushes for your floors, special accessories for different types of surfaces. Even difficult-to-access areas or tops of wardrobes can be accessed quickly without cumbersome stooping or climbing. Dust is reliably vacuumed up and not blown around the room.

Miele seals the dust securely inside the dustbag

The Miele Air Clean filter system, consisting of the original Miele dustbag, the motor protection filter and the exhaust filter, ensures maximum hygiene. Using genuine Original Miele accessories with Miele vacuum cleaners significantly reduces the amount of fine dust in ambient air. The interaction of all components guarantees a filtration of more than 99.9% of fine dust¹⁾. Ambient air is cleaner after vacuuming than before!

Quality and safety

Miele accessories must withstand the most stringent tests for durability and longevity. Just like our vacuum cleaners, our accessories are also tested to the equivalent of 20 years' usage²⁾.

Gentle cleaning

Using genuine Original Miele accessories ensures that your floors, furniture and other surfaces are cleaned gently, conveniently, yet extremely thoroughly.

¹⁾ In accordance with EN 60312-1

²⁾ Based on an average of 45 minutes vacuuming per week using maximum power. Refer to www.miele20years.com.au for Terms and Conditions.

Vacuum cleaner accessories

The right floorheads for the right floors

		Universal floorheads	Turbobrushes	Electrobrushes
Textile floor coverings		Miele's universal floorheads are a practical solution for homes with multiple types of floor surfaces.	Simultaneous brushing and vacuuming loosens dirt and hair. Ideal for pet owners with short-pile carpets.	Simultaneous brushing and vacuuming of your carpet. Cut pile and loops are actively raised.

+++ highly recommendable, + recommendable, – not recommendable

* Only SEB 236 is height adjustable for deep pile carpets

Universal floorheads

for carpets AND hard floors

Great value is placed on clean floors. At the same time vacuuming should be easy and fast. If you select the most suitable floorhead for your specific floor surfaces, this will not be a problem!

Flexible all-rounders:

Miele universal floorheads

Miele's universal floorheads are a practical solution for homes with small floor spaces and different types of floor surfaces. An all round bristle strip is located under the floorhead and depending on the floor surface, this can be retracted by flipping the foot switch on the floorhead. This makes Miele universal floorheads suitable for cleaning carpets as well as hard floors. Thanks to the metal baseplate and rubberised wheels, they glide softly across the floor. For rooms with large areas of carpet or hard flooring we recommend our floor brushes that are specifically developed for parquet, laminate, tiled and other types of hard floors or for long and short pile carpets.

Exclusive
to Miele

AirTeQ
SBD 650-3

- The energy-saving universal floorhead
- Perfect cleaning results even with low power settings thanks to optimised air flow
 - For particularly quiet and efficient vacuuming
 - Up to 40% less energy consumption thanks to optimised air flow
 - Metal soleplate for easy, gentle gliding over carpets
 - Includes soft furniture protection strip

AllTeQ
SBD 285-3

- Universal floorhead for gentle cleaning of all floor types
- Extendable/retractable bristle strip for cleaning
 - Double swivel joint and full size metal soleplate for very easy and smooth gliding over carpets
 - Wide suction aperture for thorough vacuuming
 - Large, rubberised rollers prevent scratches on hard floors
 - Wide thread catcher on underside also removes hair

FiberTeQ
SBD 470-3

- Universal floorheads for gentle cleaning of all floor types
- Wide metal soleplate for gliding easily and gently over carpets
 - Extendable/retractable bristle strip for gliding over and vacuuming of hard floors
 - Large rubberised rollers to protect scratch-sensitive hard floors

Hard Floor brushes

for scratch-sensitive and robust hard floors

Miele hard-floor brushes for hard-wearing floors

Their high-quality and durable bristles sweep even fine dust out of deep gaps and crevices - ideal for thorough cleaning of tiles and other structured hard floor surfaces. Hardfloor Twister floor brushes are extremely agile thanks to their unique double swivel joint!

Hardfloor Twister SBB 300-3

For the thorough and effortless cleaning of hard-wearing floors

- Extremely flexible thanks to their unique double swivel joint
- Reaches small nooks and crannies with ease
- High quality synthetic bristles remove dust from deep crevices

Material number: 09685730

Turbobrushes

Turbobrush for short-pile, textile floor coverings

Ideal for pet owners and households with short pile carpets:

Miele Turbobrushes

Carpets should be vacuumed regularly, even when the dirt is not visible to the eye. To ensure that dust, hair and threads, which have settled deep into the carpet, are removed reliably, carpets must be brushed at the same time as they are vacuumed. The roller brush on Miele's Turbobrush, powered by air flow through the suction tube, ensures thorough dirt removal. Regular vacuuming will raise the loops and fibres in your carpet to keep it looking beautiful for longer!

Turbobrushes are suitable for use with nearly all Miele cylinder vacuum cleaners.

Turbobrush STB 205-3

Air-powered rotating brush for quick removal of hair and threads, even from delicate rugs and carpets.

- No separate connection: directly powered by the air flow
- Gentle & thorough cleaning of carpet
- Air flow moderator allows control and prevents carpets from being sucked into the vacuum cleaner

Material number: 07250040

Mini Turbobrush STB 101

Convenient Mini Turbobrush is perfect for removing persistent fluff & pet hair from smaller areas, such as upholstery, mattresses or carpeted stairs.

- Width of suction aperture is perfect for stairs
- No separate connection - powered by air flow
- Air flow moderator slide prevents carpets from being sucked into the vacuum cleaner
- Can be attached to the handle or suction tube

Material number: 07252850

Compact Turbobrush STB 20

Compact design and unique flexible joint is extremely useful for accessing tight spaces.

- Perfect for removing the most persistent fluff and pet hair from upholstery or car interiors
- Reinforced edge helps get rid of persistent dirt
- Ergonomically optimised for left- and right-handed users
- Can be attached to the handle or suction tube

Material number: 07805350

Electrobrushes

for deep-pile and dense carpets

For appliances with electro suction hose

Electro Premium SEB 236

Particularly wide for fast and deep cleaning of all carpet piles.

- Electrical roller brush for removing persistent soil
- Five-stage height-adjustment to adjust to any depth of pile
- Motor for uniform cleaning of all depths of pile
- Integrated LED lighting: dust does not go unnoticed
- Compatible with selected models only. Please refer to Accessory Compatibility page.*

Material number: 07243060

Electro SEB 217-3

Electrically powered roller brush for intensive cleaning of robust carpets

- Electrical roller brush for removing persistent soil
- Motor for uniform cleaning of all depths of pile
- Compatible with selected models only, please refer to Accessory Compatibility page.*

Material number: 07250160

For thoroughly clean and beautiful carpets:

Miele Electrobrushes

Thick, deep-pile carpets subjected to excessive wear are particularly difficult to clean as dust, hair and fluff are trodden deep into the carpet. These are best removed when the carpet is brushed and vacuumed simultaneously: the long bristles of the electrically powered Miele Electrobrushes penetrate deep into the pile of your carpets. The suction power effectively and reliably removes dirt and dust particles. At the same time the pile is brought up by the rotating roller brush resulting in your carpets remaining in good condition and looking beautiful.

For appliances with Electrobrush socket

Electro SEB 216-3

Electrically powered roller brush for intensive cleaning of robust carpets

- Electrical roller brush for removing persistent soil
- Motor for uniform cleaning of all depths of pile
- Attachable with clip cable (not integrated) on selected Miele cylinder vacuum cleaners with socket
- Please refer to Accessory Compatibility page.*

Material number: 07250750

* Overview of compatibility of Miele accessories and vacuum cleaners from page 50

Accessories

For difficult-to-access areas or sensitive surfaces

Microset SMC 20

- Ideal for cleaning small itnd collectables
- Micro hose with combi nozzle
 - Micro dusting brush for gentle dusting
 - Micro device nozzle for easy cleaning of now crevices and gaps
 - Extension for improved operating radius

Material number: 09060360

Long crevice nozzle SFD 10

- For cleaning deep gaps
- With a length of 30cm, ideal for long narrow crevices & gaps
 - Compatible with all Miele cylinder vacuum cleaner handles
 - Suitable also for cleaning fluff filters in Miele tumble dryers

Material number: 07250050

Flexible crevice nozzle SFD 20

- For cleaning difficult-to-access areas thanks to its length
- 55 cm long; ideal for otherwise difficult-to-access areas
 - Flexible central section bends for cleaning awkward recesses
 - Fits directly onto the handles of Miele cylinder vacuum cleaners

Material number: 07252100

Exclusive
to Miele

Universal Brush SUB 10

- Ideal for sweeping off bookshelves, venetian blinds and other vertical surfaces
- Long & soft synthetic bristles to clean gaps

Material number: 07252230

Dusting brush SHB 20

- Perfect for cleaning difficult-to-access areas
- Makes nooks, gaps and corners accesible by attaching the brush to the upholstery nozzle (provided)
 - Excellent for venetian blinds, grille on heaters, radiators, etc.
 - Strong and robust synthetic bristles efficiently pick up dirt

Material number: 09223430

Exclusive
to Miele

Flexible hose extension SFS 10

- For additional 1.5 m operating radius when required
- Practical storage in hose sleeve after vacuuming
 - Fits between handle and suction tube

Material number: 07252210

Upholstery nozzle SPD 10

For convenient and thorough cleaning of upholstery

- Adjustable nozzle for more flexibility
- Wide thread catcher on underside for removing hair
- Compatible with all Miele cylinder vacuum cleaner handles

Material number: 07252190

Mattress nozzle SMD 10

For vacuuming gaps between bed frames and mattresses and between sofa cushions

- Thread catcher on underside for removing hair
- Slim design for narrow spaces
- Compatible with all Miele cylinder vacuum cleaners handles

Material number: 07252280

Genuine Original Miele AirClean filtration system

Securely retains vacuumed dust

The Miele AirClean filter system consists of genuine Original Miele accessories: a dustbag, a motor protection filter and an exhaust filter. These three filtration stages ensure that vacuumed dust remains securely locked in. The ambient air is even cleaner after vacuuming than before and it takes longer for dust to settle again on furniture and surfaces.

You can choose from 4 types of Miele exhaust filters to meet your needs:

AirClean filters

Effective filtration for everyday needs.
>99.9% overall dust retention capacity¹⁾ in combination with the HyClean dustbag and motor protection filter.

AirClean Plus filters

Effective filtration for particularly clean ambient air

Active AirClean filters

Considerable reduction of unpleasant odours.²⁾
Ideal for households with pets or smokers.

HEPA AirClean filters

Filters even fine dust and allergens – ideal for those who are allergic to house dust.
> 99.95% dust retention capacity¹⁾, as well as HEPA 13 classification.³⁾

Our recommendation for people with allergies

People with house dust allergies should look for a vacuum cleaner with a HEPA filter fitted as standard and specially sealed casing. These appliances ensure that **the filtered air discharged from the vacuum cleaner is cleaner than ambient air before vacuuming.** As a result, some Miele vacuum cleaners are explicitly recommended for allergy sufferers by TÜV North, a German material testing institute. For the appliance to maintain high filtration performance throughout its service life, the saturated, clogged HEPA filters must be replaced regularly - about once per year.

1) in accordance with EN 60312-1

2) in accordance with DIN EN 13725

3) in accordance with EN 1822/2011

Genuine Original Miele exhaust filters**

Some genuine Original Miele filters are equipped with a Timestrip®. This innovative filter replacement reminder is attached directly to the filter and is activated by pressing firmly on the arrow. When the bar is completely red the filter is saturated and must be replaced. The Timestrip® helps you to monitor the filter and ensure that it is functioning at its best. Only a perfectly functioning exhaust filter ensures that dust is securely locked in, and subsequently results in clean ambient air.

HEPA AirClean filter SF-HA 30

For all S300-800, S2, S7, Complete C1, Classic C1 and Dynamic U1 models.

Material number: 09616270

HEPA AirClean filter SF-HA 50

For all S4, S5, S6, S8, Compact C1-C2 and Complete C2-C3 models.

Material number: 09616280

Active AirClean filter SF-AA 30

For all S300-800, S2, S7, Complete C1, Classic C1 and Dynamic U1 models.

Material number: 09616080

Active AirClean filter SF-AA 50

For all S4, S5, S6, S8, Compact C1-C2 and Complete C2-C3 models.

Material number: 09616110

AirClean Plus filter SF-AP 50

For S4, S5, S6, S8, Compact C1-C2 and Complete C2-C3 models.

Material number: 10107860

AirClean Plus filter SF-H 10

For all Miele S1 and Swing H1 stick vacuum cleaners.

Material number: 07364560

Active AirClean filter SF-AA 10

For all Miele S1 and Swing H1 stick vacuum cleaners.

Material number: 07496330

* See page 49 for an overview of exhaust filters for Miele vacuum cleaners

Genuine Original Miele dustbags

Securely traps & retains dust

Why use only genuine Original Miele vacuum cleaner dustbags?

The new generation of Original Miele HyClean 3D Efficiency dustbag sets new standards in floorcare.

An overview of the advantages of the new Miele vacuum cleaner dustbags:

Thanks to several layers of filtration and a special SoftStructure surface, Miele's AirClean system offers maximum dust retention capacity which guarantees that dust is locked securely inside the bag.

The new dustbags offer a high level of efficiency even when vacuuming at low power settings. This allows you to conserve energy without compromising the high cleaning results you expect from a Miele vacuum cleaner.

The life cycle of a dustbag increases by up to 20% compared to Miele's previous HyClean dustbags. The innovative 3D technology distributes dust optimally in the dustbag and maximises the volume capacity of the dustbag.

Only Miele dustbags are a perfect match (lock-and-key principle) for Miele vacuum cleaners, ensuring that the vacuumed dust is guided safely into the bag.

FJM dustbag for all S700, S4, S6, Complete C1 and Compact C1-C2 models

HyClean 3D Efficiency FJM

- Filters more than 99.9% of all fine dust particles
- High efficiency even at low power settings
- Tear resistant
- Hygienic replacement of dustbag thanks to automatic seal
- Contents: 4 dust bags, 1 motor protection, 1 exhaust filter

Material number: 09917710

GN dustbag for all S2, S5, S8, Complete C2-C3 and Classic C1 models

HyClean 3D Efficiency GN

- Filters more than 99.9% of all fine dust particles
- High efficiency even at low power settings
- Tear resistant
- Hygienic replacement of dustbag thanks to automatic seal
- Contents: 4 dust bags, 1 motor protection, 1 exhaust filter

Material number: 09917730

U dustbag for all S7 and Dynamic U1 models

HyClean 3D Efficiency U

- Filters more than 99.9% of all fine dust particles
- High efficiency even at low power settings
- Tear resistant
- Hygienic replacement of dustbag thanks to automatic dustbag seal
- Contents: 4 dust bags, 1 motor protection, 1 exhaust filter

Material number: 10123250

Maxipack HyClean 3D Efficiency FJM

- 4 boxes of HyClean FJM dustbags
- Contents: 16 dustbags, 4 motor protection filters, 4 exhaust filters

Material number: 09922740

Maxipack HyClean 3D Efficiency GN

- 4 boxes of HyClean GN dustbags
- Contents: 16 dustbags, 4 motor protection filters, 4 exhaust filters

Material number: 09922750

Hyclean KK

- Filters out more than 99.9% of fine dust particles
- Tear resistant
- Hygienic replacement of dustbag thanks to automatic seal
- Contents: 5 dust bags, 1 motor protection filters, 1 exhaust filters

Material number: 10123260
