Welcome to Miele

## IMMER BESSER (forever better) - our pledge

When our two great grandfathers founded the Miele company, they had to make sure they stood apart from the competition in order to be successful. There are effectively only two ways of doing this: either by being cheaper than the rest or by being better than the rest. It is not really possible to be both at the same time.

They decided to be "better" than the rest.

Numerous best in class awards and certificates attest to the fact that Miele has continued to renew its commitment to being "Immer Besser" ("Forever better") throughout the past 115 years. However, the millions of satisfied customers around the world are perhaps the most important endorsement.

At the heart of this success lies a continuity of values and goals which are typically only found in companies which have been family-run for generations, rather than in businesses which are guided by the often short-term interests of the stock market.

It is in this sense that Miele has embodied first-class product quality and German engineering since 1899. Miele also stands in equal measure for respect, fairness and mutual esteem towards sales partners, customers, suppliers, employees and neighbours. Buying a Miele is an environmentally friendly decision. We ensure this by using methods of production that save resources as well by producing products which set new standards in terms of their consumption of electricity, water and detergent – and save you money at the same time.\*

As directors and co-proprietors of the fourth generation of our business we promise you that this will not change.

Dr. Markus Miele

Dr. Reinhard Zinkann

# IMMER BESSER (Forever Better)

## Our brand promise

**There are many good reasons for choosing Miele.**

**Here are just six of them.**

Since the company was founded in 1899, Miele has remained true to its 'Immer Besser' brand promise. This lends expression to our endeavours to be 'Immer besser' than our competitors and 'Immer besser' than we already are. For our customers this means the peace of mind of knowing that choosing Miele is a good decision – and probably the decision of a lifetime!

### **The Miele brand**

In many countries Miele is the most coveted brand in its branch of industry. On its own home market in Germany, Miele was even voted "best brand ever" in 2013 across all product branches. And the ownership of products from such a brand reveals much about its users: Miele customers have high expectations for the performance, convenience, design and environmental friendliness of their domestic appliances. People who buy Miele are quality conscious and have style.

### **Miele quality**

For more than 100 years it has been a proven adage that you can trust Miele and rely on our appliances. We are the only manufacturer in our branch of industry to test products such as our washing machines, tumble dryers, dishwashers and ovens to the equivalent of 20 years' usage\*. Once a Miele, always a Miele: Miele customers around the world remain loyal to Miele and recommend Miele to others. Looking to the future, we promise not to entertain any compromises when it comes to quality and durability!

### **Miele technology**

Miele stands for excellent results combined with minimum energy consumption. This applies to the hygienic and gentle care of your laundry, your flooring and your crockery as well as when conjuring up exquisite culinary delights. Many innovative features only available from Miele ensure this and numerous first places in major prestigious product tests conducted around the world confirm it.

### **Miele convenience**

Whether using a conventional rotary switch, discreet sensor controls or a high-resolution touch display like the one on your smartphone: operating a Miele appliance is both easy and fun. Add to this a multitude of convenient and reliable automatic programmes and a great love of detail - success is guaranteed - on both laundry and kitchen appliances. Make life easier for yourself with Miele!

### **Miele design**

Miele believes in clean lines and timeless elegance. Nowhere else will you find such a comparable range of built-in kitchen appliances, with consistency in design lines and colour options, to suit the most diverse of interior designs and kitchen furniture fronts. Great care is taken to coordinate appliance design across the range. Whatever the style of your kitchen: Miele is the perfect match.

### **Miele Service**

Miele customers enjoy preferential treatment: thanks to our fast and efficient after-sales service operation which has been voted best in its branch of industry many times over. We will always be there for you. That's a promise!

# What makes Miele vacuum cleaners unique?

## The pillars of Miele vacuum cleaners

Miele vacuum cleaners offer an ideal combination of superior cleaning performance, unique user convenience, excellent hygiene standards and first-class quality.

### **Cleaning performance:**

Powerful: the unique technical design allows you to achieve optimum results even with low power settings.

**User convenience**  
Nothing could be simpler!  
Miele has developed clever technical features to make vacuum cleaning as easy as possible for you.

**Hygiene**  
You can take a deep breath again: vacuuming with a multi-stage filtration system purifies the air.

**Quality**  
Guaranteed long lifespan: strict monitoring of the production process ensures high quality standards.

# Feel-good cleanliness

Miele vacuum cleaner hygiene\*

## The right dustbag? Nothing could be simpler!

It is often not easy to find the right dustbag for a vacuum cleaner. With Miele it is easy: you can identify the right original HyClean dustbag by the matching colour of the dustbag collar (lock-and-key principle).

## First class suction power

Thanks to finely graduated layers of filtration, the Miele HyClean bag remains permeable even as it fills up. The appliance display indicates when the dustbag is full or the exhaust filter is saturated and needs replacing. This allows you to continue to enjoy uninterrupted high suction power, cleaning performance and hygiene, just like on the very first day.

## NEW: HyClean 3D Efficiency

Thanks to a special SoftStructure surface with reduced air resistance the new dustbags offer the highest level of efficiency also when vacuuming at a low power setting. This enables you to conserve energy when vacuuming without compromising on high cleaning performance.

## Dust-free, hygienic dustbag replacement

Miele ensures that you are protected from coming into contact with vacuumed dust. When opening the vacuum cleaner, the dustbag opening closes automatically and its contents are reliably retained. Fine dust particles cannot escape from the dustbag. Furthermore, the material prevents the bag from ripping and tearing, even if sharp items have been vacuumed.

\* Features depend on model

**Miele vacuum cleaners are airtight**

For people with house dust allergies, we recommend a vacuum cleaner with a HEPA filter fitted as standard. Some Miele cylinder vacuum cleaners with HEPA AirClean filter have

also been recommended for allergy sufferers by the TÜV Nord, a German material testing institute. Due to its special air-tight casing seal, not only the exhaust filter but the entire appliance fulfils the TÜV Nord standard, which is reviewed annually. **The filtered and discharged air is cleaner than normal room air.** In addition, bacteria, allergens and fungal spores remain safely inside the dustbag.

**Expert workmanship**

You can choose from three different types of Miele exhaust filters:

**AirClean filters:** Effective filtration for everyday requirements. More than 99.9% dust retention capacity<sup>1)</sup> in combination with the HyClean dustbag and motor protection filter.

**Active AirClean filters:** Reduction of unpleasant odours<sup>2)</sup> – ideal for pet owners.

**HEPA AirClean filters:** Filters even finest dust and allergens – ideal for people allergic to house dust.

> 99.95% overall dust retention capacity of the vacuum cleaner<sup>1)</sup>, as well as HEPA 13<sup>3)</sup>.

<sup>1)</sup> In accordance with EN 60312-1  
<sup>2)</sup> In accordance with DIN EN 13725  
<sup>3)</sup> In accordance with EN 1822/2011

## Miele vacuum cleaner models

### Models

#### **Cylinder vacuum cleaners**

A cylinder vacuum cleaner has the classic sledge shape and follows you easily through the room thanks to its smooth-running castor wheels. This is particularly convenient when vacuuming large rooms.

#### **Stick vacuum cleaners**

With their compact design, these appliances are ideal for areas crowded with furniture. The entire appliance is pushed along in front of you when vacuuming.

#### **Robotic vacuum cleaner**

Battery-driven robotic vacuum cleaners work completely autonomously, even when nobody is at home. Thanks to Smart Navigation they are thorough and efficient, even under furniture.

# The right model for every need

## Miele cylinder vacuum cleaners

### Model series

#### **Complete C3 – distinct, powerful, exceptional**

- Approx. 7.1kg with accessories
- Up to 12m operating radius
- 4.5l dustbag capacity
- 2,000W maximum output
- +/- footswitch or handle controls
- Model with electrobrush
- Integrated accessories

#### **Compact C2 – light, convenient, compact**

- Approx. 6.5kg with accessories
- 10m operating radius
- 3.5l dustbag capacity
- 1,800W maximum output
- Rotary dial control
- Accessories with VarioClip

#### **Classic C1 – light and functional**

- Approx. 5.8kg with accessories
- 9m operating radius
- 4.5l dustbag capacity
- 1,400W maximum output
- Rotary dial controls
- Accessories with VarioClip

# Highlights\*

## Miele cylinder vacuum cleaners

**Exclusive  
to Miele**

### **The Miele Comfort handle**

Thanks to the flexible hose connector the floorhead can be manoeuvred with ease and reduces wrist strains.

### Silence System

Pleasant: our Silence System with sound-optimised motor and integrated sound insulation.

Even quieter: the Silence setting.

**Exclusive to Miele**

### Convenient cable rewind with one-touch control

Extra fast and convenient: the entire length of the cable can be rewound with a single touch of the foot switch.

**Exclusive to Miele**

### Compact System

A true space saver: the floorhead and handle can be parked on both sides of the vacuum cleaner.

**Exclusive to Miele**

### DynamicDrive swivel castors<sup>1)</sup>

Gentle on floors: rubberised wheels and castors with shock absorbers ensure that the vacuum cleaner glides smoothly over floors.

### Full range of accessories

Integrated or on a clip: the cylinder vacuum cleaner features an upholstery nozzle, crevice nozzle and a dusting brush.

# Highlights

## Miele stick vacuum cleaners

### Easy to manoeuvre

Particularly nimble: Miele stick vacuum cleaners have a slim body and an extra low centre of gravity.

### Easy to store

Slim and smart: thanks to its compact design, Miele stick vacuum cleaners are very easy to store.

### Large operating radius

Miele stick vacuum cleaners provide you with an operating radius of up to 9 m reducing the need to change sockets frequently.

### Stainless steel telescopic tube

Easy on your back: Miele's height-adjustable telescopic tubes. Also for convenient vacuuming under furniture.

### Efficient AirTeQ floorhead

Well designed: the AirTeQ floorhead achieves particularly high dust pick-up values with the lowest possible energy consumption. It is also pleasantly quiet at the same time.

**Exclusive  
to Miele**

**Ergonomic double slide switch**

Convenient for you: Use it as a stick vacuum cleaner or a hand-held. The power setting is clearly visible at a glance and the switch is always easily accessible.

# Highlights

## Miele Scout RX1 robotic vacuum cleaner

### Furniture Protection Technology

Accident-free: the RX1 recognises furniture, steps and obstacles, avoiding collisions and preventing it from tumbling down stairs.

### Advanced Corner Cleaning

Stronger than dust: the RX1 reliably finds every corner and all edges, and removes dust and dirt.

### Triple Cleaning System

Sweeps, brushes and vacuums: thanks to the triple cleaning system the Scout RX1 removes dust and dirt extremely thoroughly.

### Non-Stop Power

Operates longer: the rechargeable lithium-ion battery of the RX1 lasts for up to 2 hours (150 m<sup>2</sup>) without a break.

### Timer

At your disposal: just say when and the Scout RX1 will do the hard work for you - even when nobody is at home.

### Smart Navigation

Smart traveller – thanks to reliable navigation rooms are thoroughly cleaned right up to the edges.

# Accessories for the Miele Scout RX1 robotic vacuum cleaner

For convenient vacuuming

For reliable dust pick-up throughout its lifetime.

Maintain the cleaning performance of your Scout RX1 with original Miele accessories.

Regular replacing of filters and brushes ensures continuous suction and cleaning performance of your robotic vacuum cleaner as well as safe dust lock-in. Replacing accessories on your vacuum cleaner is very simple and your robotic vacuum cleaner can be used again in no time.

### Magnetic strip

As practical help and to adapt to your individual furnished rooms, the magnetic strip limits the appliances' working area. These areas can be carpets, rooms or items you do not want the Scout RX1 to clean or to pick up.

### Magnetic strip RX-MB 4

To set parameters of areas for the robotic vacuum cleaner to clean and to establish restricted zones.

- Temporarily or permanently
- For example for separating off rooms or carpets
- Contents: 4 x 1 meter magnetic strip, adhesive strip

Material number: 09782660

### AirClean filters RX-SAC 1

For trapping & retaining dust within the vacuum cleaner

- Filtration of dust particles
- Motor protection for maintaining cleaning performance
- Contents: 4 filters

Material number: 09724050

### Side brushes RX-SB 2

For thorough cleaning along edges and corners

- With high-quality, robust bristles made from synthetic fibres
- Suitable for hard flooring and short pile carpets
- Contents: 2 brushes (left and right)

Material number: 09724010

### Sealing lip RX-DL 1

For effective and reliable dust pick-up

- Attaching to the robotic vacuum cleaner is a simple process
- Suitable for hard flooring and short pile carpets
- Content: 1 sealing lip

Material number: 09782730

### Roller brush RX-BW 1

The rotation removes even stubborn soil

- With high-quality, robust bristles made from synthetic fibres
- Suitable for hard flooring and short pile carpets
- Contents: 1 roller brush with bearing and cleaning tools

Material number: 09782630

# For perfect and convenient dust pick-up

## Original Miele vacuum cleaner accessories

### Perfect dust pick-up

Because every home is furnished differently and individual living situations vary considerably, Miele offers a wide range of vacuum cleaner accessories. This enables you to adapt your Miele vacuum cleaner to suit your personal requirements. For example, suitable floorheads and brushes for your floors, special accessories for different types of surfaces. Difficult-to-access areas or tops of cupboards can be accessed fast without having to bend or climb. Dust is not dispersed and reliably vacuumed up.

### Miele seals the dust securely in the dustbag

The Miele Air Clean filter system, consisting of the original Miele vacuum cleaner, the motor protection filter and the exhaust filter, guarantees a high level of hygiene. Using original Miele accessories with Miele vacuum cleaners reduces the fine dust particle count in room air significantly. The interplay of all components guarantees a filtration of more than 99.9% of fine dust<sup>1)</sup>. After vacuuming, the room air is even cleaner than it was before!

### Quality and safety

Miele accessories must withstand the highest degree of strain and endurance testing. Just like our vacuum cleaners, they are tested for 20 years equivalent usage<sup>2)</sup>.

### Gentle cleaning

Using original Miele accessories ensures that your floors, furniture and other surfaces are cleaned gently and carefully, yet extremely thoroughly.

<sup>1)</sup> in accordance with EN 60312-1

<sup>2)</sup> Equating to an average weekly use of 45 minutes per week at maximum power

# Universal floorheads for carpets AND hard floors

You place great store by thorough and gentle cleaning of your floors. At the same time vacuuming should be easy and fast. If you select the most suitable floorhead for your specific floor coverings, this will not be a problem!

## **Flexible all-rounders:**

### **Miele universal floorheads**

Miele's universal floorheads are practical solutions for homes with small floor spaces and different types of floor coverings. Foot switches for operating the all-round bristle strip are located on the floorhead and depending on the floor covering, vacuuming with or without it is possible. This makes Miele universal floorheads suitable for cleaning carpets as well as hard floors. Thanks to the metal baseplate and rubberised wheels, they glide softly across the floor. For homes with large floor spaces covered with carpets or hard flooring we recommend our floorheads which have been specifically developed for parquet, laminate flooring, various hard floor types as well as for short-pile and long-pile carpets and wall-to-wall carpets.

### AllTeQ SBD 285-3

Universal floorhead for extremely effortless vacuuming, particularly of carpets

- Extendable and retractable bristle strip for cleaning
- Double swivel joint and full size metal baseplate for very easy and smooth gliding over carpets
- Wide suction inlet for good cleaning along walls and edges
- Large, rubberised rollers prevent scratches on hard floors
- Wide thread catcher on underside also removes hair

Exclusive  
to Miele

### AirTeQ SBD 650-3

The energy-saving universal floorhead for particularly quiet vacuuming

- Perfect cleaning results at low wattage thanks to optimised air stream
- For particularly quiet and efficient vacuuming
- Up to 40% less energy consumption thanks to optimised air stream
- Metal baseplate for easy, gentle gliding over carpets
- With soft furniture protection strip

### FiberTeQ SBD 470-3

Universal floorheads for effortless gliding, particularly over carpets

- Wide metal baseplate for gliding softly across carpets
- Retractable bristle strip for effortlessly gliding over and vacuuming hard floors
- Large, rubberised rollers for running smoothly over scratch-sensitive hard floors
- For very convenient as well as gentle vacuuming of all types of floors

### Miele hard-floor brushes for hard-wearing floors

Their high-quality and hard-wearing bristles sweep even fine dust out of deep gaps and crevices - ideal for the thorough cleaning of tiles and other structured hard floor surfaces.

Exclusive  
to Miele

### Hardfloor Twister SBB 300-3

For the thorough and effortless cleaning of hard-wearing floors

- Extremely flexible and nimble thanks to their unique double swivel neck
- It easily accesses tight spots and corners
- High-quality bristles made from synthetic fibres remove dust from deep gaps

Material number: 09685730

# Turbobrush for short-pile, textile floor coverings

## Ideal for pet owners and households with short-pile carpets:

### Miele Turbobrush

Carpets should be vacuumed regularly, even when no dirt is visible to the eye. To ensure that dust, hair and threads, which have settled deep into the carpet, are removed reliably, carpets must be brushed at the same time as they are vacuumed. The roller brush on Miele's Turbobrush, powered by the passage of air through the suction tube, ensures the thorough removal of dirt.

Vacuuming on a regular basis restores the pile again and improves its appearance! Turbobrushes can be used with almost any Miele cylinder vacuum cleaner.

### Turbobrush STB 205-3

Air-powered rotating brush loosens stubborn dirt and picks up threads, hair & fluff. Swing mounted roller brush is gentle on carpets.

- No separate connection: directly powered by airflow
- Offers gentle and thorough cleaning of carpets
- Air adjustment slide prevents carpets being sucked into the vacuum cleaner

Material number: 07250040

### Mini Turbobrush STB 101

Convenient handheld Turbobrush is perfect for removing persistent fluff & pet hair from upholstery, mattresses or carpeted stairs.

- Suction aperture (16cm) perfect for stairs
- No separate connection: air-powered
- Air adjustment slide prevents carpets being sucked into the vacuum cleaner
- Can be attached to the handle or suction tube

Material number: 07252850

### Turbobrush STB 20

Compact design and unique flexible joint is extremely useful for accessing tight spaces.

- Perfect for removing the most persistent fluff & pet hair from upholstery or car interiors.
- Reinforced edge helps get rid of persistent soiling
- Ergonomically optimised for left- and right-handed users
- Can be attached to the handle, suction tube or suction hose

Material number: 07805350

# Electrobrushes for deep-pile and dense carpets

## For thoroughly cleaned and beautiful carpets:

### Miele Electrobrushes

Thick, deep-pile carpets subjected to excessive wear are particularly difficult to clean as dust, hair and fluff are trodden deep into the carpet. These are best removed when the carpet is brushed and vacuumed simultaneously: the long bristles of the electrically powered Miele Electrobrushes penetrate deep into the pile of your carpets. The suction power effectively and reliably removes dirt and dust particles. At the same time the pile is brought up actively by the rotating roller brush resulting in your carpets remaining in good condition and looking beautiful.

## For models with electro suction hose

reddot design award  
winner 2003

### SEB 236 PowerPlus Electrobrush (Integrated)

- Particularly wide for fast and deep cleaning of all depths of carpet pile.
- Electrical roller brush for removing persistent soil
- Five-stage height-adjustment to adjust to any depth of pile
- Motor for uniform cleaning of all depths of pile
- Integrated LED lighting: dust does not go unnoticed
- Compatible with selected models only. Please refer to Accessory Compatibility page.

Material number: 07243060

### SEB 217-3 Electrobrush (Integrated)

- Electrically powered roller brush for intensive cleaning of robust carpets
- Electrical roller brush for removing persistent soil
- Motor for uniform cleaning of all depths of pile
- Compatible with selected models only, please refer to Accessory Compatibility page\*.

Material number: 07250160

## For models with socket for Electrobrush

### SEB 216-3 Electrobrush

- Electrically powered roller brush for intensive cleaning of robust carpets
- Electrical roller for removing persistent soil
- Motor for uniform cleaning of all depths of pile
- Attachable with Clipcable (not integrated) on Miele cylinder vacuum cleaners with Electrobrush socket

Material number: 07250750

\* Overview of compatibility of Miele accessories and vacuum cleaners from page 48

# Practical helpers for difficult-to-access areas and sensitive surfaces

## Microset SMC 20

- Ideal for cleaning small items and collectibles
- Micro hose with combi nozzle
  - Micro dusting brush for gentle dusting
  - Micro device nozzle for easy cleaning of narrow crevices and gaps
  - Extension for improved operating radius

Material number: 09060360

## Long crevice nozzle SFD 10

- For cleaning deep gaps.
- With a length of 30, ideal for long narrow crevices & gaps
  - Compatible with all Miele cylinder vacuum cleaner handles
  - Excellently suited for cleaning fluff filters in tumble dryers

Material number: 07250050

## Flexible crevice nozzle SFD 20

- For cleaning difficult-to-access areas thanks to its impressive length
- 55 cm long; ideal for otherwise difficult-to-access areas
  - Flexible, bendable central section for cleaning nooks and crannies
  - Compatible with all Miele cylinder vacuum cleaner handles

Material number: 07252100

## Universal brush SUB 10

- Ideal for sweeping off bookshelves, venetian blinds and other vertical surfaces
- Long & soft synthetic bristles to clean gaps

Material number: 07252230

## Dusting brush SHB 20

- Perfect for cleaning difficult-to-access areas
- Nooks, gaps and corners conveniently accessible with upholstery nozzle
  - Attachment for cleaning radiators, etc.
  - With strong and robust synthetic bristles

Material number: 09223430

## Flexible hose extension SFS 10

- For additional 1.5 m operating radius when vacuuming
- If required - additional extendable hose
  - Practical storage in hose sleeve after vacuuming
  - Fits between handle and suction tube

Material number: 07252210

**Upholstery nozzle  
SPD 10**

- For easy, fast and thorough cleaning of upholstery
- Adjustable nozzle for more flexibility
  - Wide thread catcher on underside for removing hair
  - Compatible with all Miele cylinder vacuum cleaner handles

Material number: 07252190

**Mattress nozzle  
SMD 10**

- For vacuuming gaps between bed frame and mattress, and between settee cushions
- Thread catcher on underside for removing hair
  - Narrow design for narrow gaps
  - Compatible with all Miele cylinder vacuum cleaner handles

Material number: 07252280

# Original Miele AirClean filtration system

To securely trap vacuumed dust

The Miele AirClean filtration system consists of an original Miele dustbag, a motor protection filter and an original Miele exhaust filter. These three filtration stages ensure that vacuumed dust remains securely locked in. The room air is cleaner than before vacuuming and it takes longer for dust to settle on furniture and surfaces again.

**For your individual requirements you can choose from three different types of Miele exhaust filters:**

### AirClean filters

Effective filtration for everyday requirements.

More than 99.9% dust retention capacity<sup>1)</sup> with HyClean dustbag and motor protection filter.

### Active AirClean filters

Significant reduction of unpleasant odours<sup>2)</sup> – ideal for pet owners and smokers.

### HEPA AirClean filters

Filters out even finest dust and allergens – ideal for those allergic to house dust. > 99.95% dust retention capacity<sup>1)</sup>, as well as HEPA 13 classification<sup>3)</sup>.

### Our recommendation for allergy sufferers:

Those allergic to domestic dust should use vacuum cleaners with a HEPA filter fitted as standard and a special air-tight casing seal. These appliances ensure that **the filtered air discharged from the vacuum cleaner is cleaner than ambient room air before vacuuming**. As a result of these features, some Miele vacuum cleaners are explicitly recommended for allergy sufferers by TÜV North, a German material testing institute. To ensure that excellent filtration values are maintained over the entire product life, the HEPA filter must be replaced when it is saturated - approx. once a year.

<sup>1)</sup> in accordance with EN 60312-1

<sup>2)</sup> in accordance with DIN EN 13725

<sup>3)</sup> in accordance with EN 1822/2011

# Original Miele exhaust filters

Some original Miele filters are equipped with a Timestrip®. The Timestrip®, is activated by pressing firmly down on the green arrow after inserting it into the machine. When the entire length of the indicator has turned red, the filter is saturated and has to be replaced. The Timestrip® assists you to monitor the perfect functioning of the filter. Only a perfectly functioning exhaust filter ensures that dust is securely locked in, and subsequently results in clean room air.

**HEPA AirClean filter  
SF-HA 30**

For all S300-800, S2, S7, Complete C1, Classic C1 and Dynamic U1 models

Material number: 09616270

# Original Miele dustbags

Securely trapped & retained dust

## Why use only genuine Miele vacuum cleaner dustbags?

New standards are set in floorcare with the new generation of original Miele HyClean 3D Efficiency vacuum cleaner dustbags.

An overview of the advantages of the NEW Miele vacuum cleaner dustbags:

Thanks to several layers of filtration and a special SoftStructure surface, Miele's AirClean system offers maximum dust retention capacity which guarantees that dust is locked securely inside the bag.

The new dustbags offer highest level of efficiency also when vacuuming at low power level. This allows you to save energy when vacuuming without compromising the high cleaning performance you are used to.

The life cycle of a dustbag increases by up to 20% compared to Miele's previous HyClean dustbags. The innovative 3D technology distributes dust optimally in the dustbag and utilises the entire dustbag capacity.

Another reason why you should opt for Miele original products. Only Miele dustbags

together with Miele vacuum cleaners form a perfect lock-and-key principle which results in vacuumed dust being directed securely into the dustbag.

### HyClean 3D Efficiency FJM

- Filters out more than 99.9% of all fine dust particles
- High efficiency, even when low power setting is selected
- Longer use thanks to 3D technology
- Hygienic replacing of dustbag thanks to automatic dustbag seal
- Contents: 4 dustbags, 1 motor protection filters, 1 exhaust filters

Suitable for all S700, S4, S6, Complete C1 and Compact C1-C2 models.

Material number: 09917710

### HyClean 3D Efficiency GN

- Filters out more than 99.9% of all fine dust particles
- High efficiency, even when low power setting is selected
- Longer use thanks to 3D technology
- Hygienic replacing of dustbag thanks to automatic dustbag seal
- Contents: 4 dustbags, 1 motor protection filters, 1 exhaust filters

Suitable for all S2, S5, S8, Complete C2-C3 and Classic C1 models

Material number: 09917730

### HyClean U

- Filters out more than 99.9% of all fine dust particles
- Tear resistant thanks to protective netting preventing damage even sharp items are vacuumed
- Hygienic replacing of dustbag thanks to automatic dustbag seal
- Contents: 4 dustbags, 1 motor protection filters and 1 exhaust filters

Suitable for all Dynamic U1 & S7 upright models.

Material number: 07282050

### Maxipack HyClean 3D Efficiency FJM

- 4 boxes of HyClean FJM bags
- Filters out more than 99.9% of all fine dust particles
- High efficiency, even when low power setting is selected
- Longer use thanks to 3D technology
- Hygienic replacing of dustbag thanks to automatic dustbag seal
- Contents: 16 dustbags, 4 motor protection filters, 4 exhaust filters

Suitable for all S700, S4, S6, Complete C1 and Compact C1-C2 models.

Material number: 09922740

### Maxipack HyClean 3D Efficiency GN

- 4 boxes of HyClean GN
- Filters out more than 99.9% of all fine dust particles
- High efficiency, even when low power setting is selected
- Longer use thanks to 3D technology
- Hygienic replacing of dustbag thanks to automatic dustbag seal
- Contents: 16 dustbags, 4 motor protection filters, 4 exhaust filters

Suitable for all S2, S5, S8, Complete C2-C3 and Classic C1 models.

Material number: 09922750

### Dustbag KK

- Filters out more than 99.9% of all fine dust particles
- Hygienic replacing of dustbag thanks to automatic dustbag seal
- Contents: 5 dustbags, 1 motor protection and 4 exhaust filters

Suitable for Miele S1 and Swing H1 stick vacuum cleaners.

Material number: 09359880
