

Design for life.

Generation 6000 dishwashers

Welcome to Miele

IMMER BESSER (forever better) – our pledge

When our two great grandfathers were in the process of founding the Miele company, they had to make sure they stood apart from the competition in order to be successful. There are effectively only two ways of doing this: either by being cheaper than the rest or by being better than the rest. It is not really possible to be both at the same time.

They decided to be “better” than the rest.

Numerous best in class awards and certificates attest to the fact that Miele has continued to renew its commitment to being “immer besser” throughout the past 115 years. However, the millions of satisfied customers around the world are perhaps the most important endorsement.

At the heart of this success lies a continuity of values and goals which are typically only found in companies which have been family-run for generations, rather than in businesses which are guided by the often short-term interests of the stock market.

It is in this sense that Miele has embodied first-class product quality and German engineering since 1899. Miele also stands in equal measure for respect, fairness and mutual esteem towards sales partners, customers, suppliers, employees and neighbours. Buying a Miele is an environmentally friendly decision. We ensure this by using methods of production that save resources as well by producing products which set new standards in terms of their consumption of electricity, water and detergent – and save you money at the same time.*

As directors and co-proprietors of the fourth generation of our business we promise you that this will not change.

Dr. Markus Miele

Dr. Reinhard Zinkann

* Please visit www.miele-sustainability.com for more information on our efforts and guiding principles

IMMER BESSER

Our brand promise

There are many good reasons for choosing Miele.

Here are just six of them.

Since the company was founded in 1899, Miele has remained true to its 'Immer Besser' brand promise. This means that we will do all that we can to be 'forever better' than our competitors and 'forever better' than we already are. For our customers this means the peace of mind of knowing that choosing Miele is a good decision – and probably the decision of a lifetime!

The Miele brand

In many countries, Miele is the most desired brand in its field. In its German home market, Miele was even voted 'best brand ever' in 2013 across all product branches. And the ownership of products from such a brand reveals much about its users: Miele customers have high expectations for the performance, convenience, design and the environmental friendliness of their domestic appliances. People who buy Miele are quality conscious and have style!

Miele quality

For more than 100 years it has been a proven adage that you can trust Miele and rely on our appliances. We are the only manufacturer in our branch of industry to test products such as our washing machines, tumble dryers, dishwashers and ovens to the equivalent of 20 years of use. Once a Miele, always a Miele: Miele customers around the world remain loyal to Miele and recommend Miele to others. Looking to the future, we promise not to entertain any compromises when it comes to quality and durability!

Miele technology

Miele stands for excellent results combined with the lowest possible energy consumption. This goes for the hygienic and gentle care of your laundry, your flooring and your crockery as well as when conjuring up exquisite culinary delights. The key to this is a wealth of innovative features available only from Miele. This is borne out by numerous first places in leading product tests conducted around the world.

Miele convenience

Whether conventional rotary switch, discreet sensor controls or a high-resolution touch display like the one on your smartphone: operating a Miele is both easy and fun. Add to this a multitude of convenient and reliable automatic programmes and a great love of detail - success is guaranteed - on board both laundry and kitchen appliances. Make life easier for yourself with Miele!

Miele design

Miele believes in clean lines and timeless elegance. Nowhere else will you find such a comparable range of built-in kitchen appliances, with consistency in Design lines and colour options, to suit the most diverse of interior designs and kitchen furniture fronts. Great care is taken to coordinate appliance design across the range. Whatever the style of your kitchen: Miele is the perfect match.

Miele service

Miele customers enjoy preferential treatment: thanks to our fast and efficient after-sales service operation which has been voted best in its branch of industry many times over. Even if you need personalised instructions on appliance use or professional cleaning of your machines, Miele will gladly make a home visit. We will always be there for you. That's a promise!

Sparkling moments

Dishwashers from Miele

On the next pages you will experience how Miele dishwashers make your dishes sparkle – and put a smile on your face: with excellent cleaning results, clever details which make everyday work simpler, and low consumption values to suit the environment and your budget.

Most Satisfied Customers. Dishwasher award for the fourth time.

Miele has been awarded Canstar Blue's "Most Satisfied Customers – Dishwashers" award for the second year in a row. That's four out of the five years that Canstar Blue have conducted this research that Miele have won this award!

Canstar Blue is a customer satisfaction research and ratings business launched in July 2010 with the core purpose of helping consumers make better purchase decisions. Based on independent research conducted by Colmar Brunton, so far over 90,000 Australians have reviewed their customer satisfaction across more than 100 different categories.

Canstar Blue is focused on product and service excellence and aims to act as the real voice of the consumer (based on quantitative research). Hence the Canstar Blue tagline is "by consumers, for consumers". More than 58% of Australians are now aware of the Canstar Blue brand* and all the results are freely available to consumers via their website. Customers who took part in the dishwasher survey reviewed:

- Overall satisfaction
- Value for money
- Performance
- Quietness
- Internal layout
- Ease of use
- Warranty and Service
- Design

Perfect design harmony in your kitchen

The designs of a Miele dishwasher

The designs of Miele dishwashers

Miele offers four different types of dishwashers - for maximum convenience and perfect design harmony in your kitchen.

Freestanding dishwashers

Freestanding dishwashers with a hard-wearing covering panel which can be used as a worktop. As these appliances are not built in, they can simply move house with their owners and be installed in the new kitchen.

Built-under dishwashers

Ideal as replacement units in existing kitchens. The appliance can be installed in a kitchen run. Built-under dishwashers are available in Brilliant White and Stainless steel with CleanSteel finish.

Integrated dishwashers

Appliance fronts and fascias are designed to take front panels to match kitchen furniture. Alternatively, front panels in stainless-steel with CleanSteel finish are also an option.

Fully integrated dishwashers

The entire front of the appliance is concealed either behind cabinet panelling or a Miele front made from stainless steel with CleanSteel finish. This allows dishwashers to blend in unobtrusively with the design of the kitchen.

The ideal solution for your kitchen

The wide range of Miele dishwashers

Standard dishwashers

(81 cm high, 60 cm wide)

This is the standard niche dimension available in the majority of households, from 81 cm built-under height.

Extra tall dishwashers (XXL)

(85 cm high, 60 cm wide)

Built-under, integrated and fully integrated dishwashers from Miele are also available as XXL models. They are suitable for kitchens with 85 cm built-under height. These appliances offer 4 cm of additional depth in the upper basket: the deeper basket offers even greater flexibility and more loading options for example for stemware, large coffee mugs and plates with a diameter of up to 23 cm.

Extra narrow dishwashers (SlimLine)

(81 cm high, 45 cm wide)

Ideal for households where space is at a premium, but still requiring everything a Miele dishwasher has to offer.

**Miele dishwasher sizes**

Miele dishwashers are available in a number of different heights and widths, offering the optimum solution for your kitchen.

Exclusive features for perfect results and more convenience

The product highlights of Miele dishwashers*

Exclusive to Miele Knock2open²⁾

Unique: this appliance can be perfectly integrated into handleless kitchens – the door opens automatically by tapping lightly twice.

High level of energy efficiency

Best performance: highly economical, producing excellent cleaning and drying results.

Fresh water dishwashers with water consumption from 6.5 l

Minimum consumption: in the Automatic programme best cleaning results combined with minimum water consumption.

Exclusive to Miele BrilliantLight³⁾

Automatically controlled: four LEDs immerse the entire dishwasher interior in brilliant light.

Exclusive to Miele Patented⁴⁾ AutoOpen drying

Everything perfectly dry: the dishwasher door opens automatically at the end of a programme cycle.

*Features vary depending on model

1) DE102008062761B3, EP2201887B1

2) Patent pending

EP2428153A1, DE102010037397A1, US2012/0055091A1

3) EP2233061B1, US8297768B2

4) DE102007008950B4, EP2120671B1

**Exclusive
to Miele**

Patented¹⁾ 3D cutlery tray

An innovation from the inventor of the cutlery tray: Miele's intelligent 3D cutlery tray is height, width and depth adjustable so that it can be perfectly adapted to suit any load. This allows awkward items such as whisks and soup ladles to be accommodated and gently washed.

Adjusting the side sections of the cutlery tray allows tall stemware to be held securely in the upper basket. No need to take the side sections of the drawer out!

Further convincing talents

The product benefits of Miele dishwashers*

**Exclusive
to Miele**

FlexiTimer with EcoStart

Clever: with EcoStart, the dishwasher automatically selects the cheapest electricity tariff every time.

**Exclusive
to Miele**

PremiumComfort basket design

Unique: the new design of the lower basket and the innovative upper basket offers a wide range of functions.

**Exclusive
to Miele**

Perfect GlassCare¹⁾

Gentle and with care: this technology ensures that your glasses are cleaned gently.

**Exclusive
to Miele**

AutoClose

Very slight pressure against the door is sufficient to activate the motorised door closing feature.

**Exclusive
to Miele**

ComfortClose

Practical: the door is extremely easy to open and close, and stays open in any position.

**Exclusive
to Miele**

Patented²⁾ in-door salt container

Extremely convenient: salt can be replenished in a simple and convenient way, pouring it into the container with the door half-open, without having to stoop.

**Exclusive
to Miele**

TimeControl

Clear and concise: four LEDs inform users of the time remaining to the end of the programme.

**Exclusive
to Miele**

SensorDry³⁾

No residue: this feature ensures that crockery is dry even under adverse conditions.

**Exclusive
to Miele**

Reduced load⁴⁾

Full load not necessary: the automatic 'Reduced load' function adjusts water and electricity consumption to the load size.

**Exclusive
to Miele**

SolarSave

Unbeatable: with the SolarSave function you can achieve an extremely low electricity consumption of 0.05 kWh per cycle.

**Exclusive
to Miele**

Waterproof System

Protection from water damage: if correctly installed, Miele offers a life-long guarantee**.

Touch-on-Metal controls

Elegant and convenient: flush controls in a stainless steel fascia panel achieve a high-end linear design.

Best sound emissions

Barely audible: sound emissions as low as 41 dB(A), yet constantly achieve perfect results.

ExtraQuiet

Extremely quiet: this programme produces only 38 dB(A) and is so quiet that you can hardly hear it.

Hot water connection

Consistent sustainable approach: all dishwashers can be connected to a hot water supply, max. temperature 60°C.

EcoFeedback

Economical dishwashing: when selecting a dishwashing programme, the estimated water and electricity consumption values will be shown in the display.

Delay start with integrated countdown indicator

Smart: the countdown indicator. Thanks to the delay start feature, the start of a programme can be postponed by up to 24 hours.

* Features vary depending on model

**Equates to 7,500 programme cycles

1) EP2233061B1

2) EP1457153B1, US7124765B2

4) EP1967121B1

Gentle cleaning of high-quality glassware

Gentle treatment of crockery and glassware in Miele dishwashers

DeLuxe basket design

3D cutlery tray

AutoOpen drying

CareCollection

Riedel recommends Miele dishwashers

Can you really wash delicate, expensive wine glasses in a dishwasher? Yes, perfectly, as long as it's a Miele! With its unique combination of intelligent features, Miele is the specialist when it comes to protecting glassware:

- **3D cutlery tray:**
ample space even for stemware
- **DeLuxe basket design:**
secure hold for wine glasses
- **AutoOpen drying:**
gentle, sparkling drying without the need for polishing
- **Perfect GlassCare:**
long-lasting sparkle for your glasses
- **'Sensor wash gentle' programme:**
perfect control of glass-care parameters
- **CareCollection:**
perfectly matching cleaning products with special glass-protection formula

The results: spotless, sparkling glasses without the need for polishing. No smears, no water stains, no breakages. After numerous wash cycles, your valuable glassware will look as good as new.

Even high-quality delicate stemware can be washed in a Miele dishwasher without any risk.

This has been confirmed by Riedel, manufacturer and originator of fine wine glasses. Maximilian Riedel explicitly recommends that Riedel glasses, both hand and machine-blown, be washed in a Miele dishwasher.

"That our high-end glassware can be perfectly and gently washed in a Miele machine is quite a recent revelation. A Miele dishwasher makes perfect glass care simple and easy. To ensure the gentle cleaning of our glasses, we wholeheartedly recommend that they are washed in a Miele dishwasher. This produces better results than washing by hand."

Here, plates can step out of line

The basket designs of Miele dishwashers*

**Exclusive
to Miele**

MultiComfort area in lower basket¹⁾

For all types of crockery: even large pots or bulky items can be accommodated easily in the versatile lower basket.

**Exclusive
to Miele**

Jumbo cup rack

Individual and space-saving: the jumbo cup rack is perfect for large coffee cups, cereal bowls, etc.

Ergonomic basket handles

Domestic chores made easier: the basket handles simplify loading and unloading.

Height-adjustable upper basket

Several options: on all Miele dishwashers, the upper basket is easily height-adjustable.

Height-adjustable glass rail

Many guests, many glasses: the height-adjustable rail creates additional space in the upper basket for even more glasses.

**Exclusive
to Miele**

Ideal for glassware

Secure hold: a height-adjustable glass holder and a special glassware rail in the lower basket help provide a secure hold.

Hinged bottle holder

Absolutely secure: even items such as vases can be thoroughly cleaned using the bottle holder.

Cutlery basket

Extremely versatile: the cutlery basket can be positioned over the front row of spikes in the lower basket.

Cutlery tray

All items of cutlery are separated, soil is completely removed and cutlery perfectly dried.

For all eventualities

The dishwashing programmes of Miele dishwashers*

ECO

Extremely economical: this water and energy-saving programme is suitable for mixed loads.

Sensor wash

For standard crockery: for example mixed loads with all types of food residue.

Light soiling 55°C

Quick and efficient: the programme for many occasions thoroughly cleans crockery with regular soiling.

Intensive 75°C

Maximum cleaning performance: pots, pans, etc. are cleaned residue-free.

Sensor wash gentle

Gentle and with care: this programme is ideal for temperature-sensitive and lightly soiled crockery.

Quick wash 40°C

Short programme cycle: cleans mixed loads with fresh food residue in approx. half an hour.

Exclusive to Miele Hygiene

Hygienically clean: baby bottles, cutting boards, etc. are thoroughly cleaned and bacteria-free, certified by Germany's Institute for Applied Research GmbH.

ExtraQuiet

Extremely quiet: for mixed loads with slightly dried-on food residue.

Exclusive to Miele SolarSave

Unbeatable: with the SolarSave function you can achieve an extremely low electricity consumption of 0.05 kWh per cycle.

**Pasta/Paella**

For dishes containing starch: the programme removes pasta, rice and potato residue.

**Tall items 65°C**

For large, bulky items: frees up space for large, bulky items in the lower basket.

**Glasses warm**

Brilliant appearance: this programme excludes the drying phase, guaranteeing a perfect head in beer glasses.

**Maintenance programme**

As and when required: this programme ensures the effective and thorough cleaning of your dishwasher.

For all eventualities

The dishwashing options of Miele dishwashers*

Short

Sometimes things have to be done on the double: the "Short" option reduces the length of a programme by up to 30%.

Energy save

Sensible choice: this option reduces electricity consumption by adjusting temperatures and contact times.

Extra dry

Guaranteed dry: thanks to the extended drying phase and the increased final rinse temperature everything is perfectly dried, even glasses and plastic items.

Intensive lower basket

Strong and gentle at the same time: this option for enhanced cleaning performance in the lower basket can be added to a programme.

Pre-wash

To avoid smells: if a complete programme cycle is not yet needed, crockery can be pre-rinsed to avoid unpleasant odours.

Soak

The Soak Extra is used for soaking crockery with dried on soiling".

Accessories for dishwashers

Cutlery basket for lower basket GBU 5000

- For additional cutlery capacity in the lower basket
- Cutlery basket can be positioned conveniently in the lower basket
 - For Miele generation 5000 and 6000 dishwashers
 - For perfectly positioning, for example, awkward items of cutlery

M.-Nr. 7.823.150

Stemware rails for lower basket GGU 5000

- For long-stem and tall glasses
- For a secure hold for fine glassware
 - Perfectly sparkling - guaranteed
 - For Miele generation 5000 and 6000 dishwashers

M.-Nr. 7.823.180

Dishwasher building-under kit UBS G 60-1

- For the perfect installation of a built-under freestanding dishwasher
- 1 appliance with 2 installation options to suit individual requirements
 - Contents: skids, depth-adjustable plinth and vapour protection
 - Suitable for all Miele freestanding dishwashers

M.-Nr. 6.390.810

Dishwasher conversion kit UBS-1

- For perfectly adjusting appliance height to the cabinetry recess
- Conversion kit for extending plinth height
 - 4 machine feet, extendable by 60 mm
 - Suitable for all Miele dishwashers

M.-Nr. 6.394.761

Dishwasher skids GK 60-1

- For protecting the floor perfectly during installation
- Particularly gentle on, for example, PVC floors
 - Simplifies the installation as unevenness of floors is reduced
 - Prevents impressions in and scratches to the floor during the installation of the appliance
 - Suitable for all Miele dishwashers

M.-Nr. 6.394.740

Dishwasher installation kit MSHE 601-1

- For perfect installation in a tall unit with an additional dresser unit
- Raised appliances - perfect protection against damp
 - Contents: steam deflector strip, brackets, plugs and screws
 - Suitable for 60 cm wide Miele integrated dishwashers

M.-Nr. 6.517.920

Dishwasher installation kit MSHE 602-1

- For perfect installation in a tall unit with an additional niche for a built-in appliance
- Raised appliances - perfect protection against damp
 - Contents: steam deflector strip, brackets, plugs and screws
 - Suitable for 60 cm wide Miele integrated dishwashers

M.-Nr. 6.597.200

Accessories for dishwashers

Build-under decor set

For the perfect conversion of an integrated dishwasher into a built-under appliance.

- Creation of built-under dishwasher using a combination of a GDU set and an integrated appliance.
- Can accommodate decor panels with a thickness of up to 4 mm.
- Contents: Decor set and depth-adjustable plinth.

GDU 60/60-1: W x H, 60 x 60 cm

Suitable for 60 cm wide Miele integrated dishwashers

Brilliant White, M.-Nr. 7.160.810
Black, M.-Nr. 6.390.740

Front panels for integrated dishwashers

With stainless steel and CleanSteel finish.

- Perfect design harmony of front panels and fascia panel.
- Simple removal of finger prints - stainless steel with CleanSteel finish.
- Suitable for 60 cm wide Miele integrated dishwashers.

GFV 60/57-1: W x H, 60 x 57 cm

M.-Nr. 7.149.240

Suitable for 45 cm wide Miele integrated dishwashers

GFV 45/60-1: W x H, 45 x 60 cm

M.-Nr. 7.160.830

Front panels for fully integrated dishwashers

In stainless steel with CleanSteel finish, with PureLine handle.

- Perfect design harmony in the kitchen.
- Simple removal of finger prints - stainless steel with CleanSteel finish.
- Including stainless steel PureLine handle and fittings.
- Suitable for 60 cm wide fully integrated Miele dishwashers

GFVi 613/72-1: W x H, 60 x 72 cm

M.-Nr. 9.635.930

Useful information

Miele dishwasher glossary

Dishwasher glossary

3D cutlery tray¹⁾

The 3D cutlery tray from Miele is unique: it is height, width and depth adjustable so that it can be perfectly adapted to suit any load. Even awkward items such as soup ladles and whisks are easy to accommodate.

AutoClose

With Miele AutoClose, the dishwasher door closes both automatically and gently. This combines convenience with elegance, creating an almost magical moment in kitchen life. Very slight pressure against the door is sufficient to activate the motorised door closing feature.

AutoOpen drying²⁾

The dishwasher door opens a fraction automatically at the end of a programme cycle. This allows fresh, dry air to enter the dishwasher, and even challenging items such as plastics and glassware are perfectly dried. Special air ducting protects the worktop from moisture.

BrilliantLight³⁾

Thanks to the patented³⁾ door controls, 4 power LEDs switch on gradually when the dishwasher door is opened. The 4 LEDs immerse the dishwasher interior in brilliant light. The area in front of the dishwasher is also well lit, significantly improving loading and unloading.

ComfortClose

Benefit from the ease with which Miele's dishwasher door opens and closes. Convenient: the door stays open at the required position.

DeLuxe basket design

Basket handles, a redesigned lower basket and a whole host of functions in the upper basket: Miele dishwashers ring in a new era in basket design.

EcoFeedback

Dishwashers from Miele simplify your everyday tasks and allow you to wash dishes environmentally friendly. In the display, the EcoFeedback function shows you the estimated water and electricity consumption in the selected programme. This allows you to choose the ecologically ideal programme. At the end of the programme you have the option to call up the actual consumption data.

Energy efficiency

The energy label provides information at a glance on the energy consumption of a dishwasher. Miele machines combine top cleaning and drying results with extremely low electricity and water consumption:

- Annual energy consumption: 237 kWh
- Annual water consumption: 2,716 litres

Best performance combined with low consumption.

ExtraQuiet

Miele's ExtraQuiet programme produces sound emissions of only 38 dB(A) and is so quiet that you can hardly hear it. Ideal for open-plan kitchens and when the dishwasher is run overnight.

FlexiTimer with EcoStart

Miele dishwashers are even smarter with EcoStart. This function enables you to be environmentally friendly by using flexible tariffs and allows you to trust your appliance with the selection of the cheapest electricity tariff for a programme, taking its running time into consideration. You can program three different tariffs and only have to determine the finishing time for the latest programme. The dishwasher then selects a starting time with the cheapest tariff within the programmed time window.

Fresh water dishwashers with water consumption from 6.5 l

Miele dishwashers rely solely on fresh water and in the Sensor wash programme wash crockery with as little as 6.5 l of water - much less than the contents of a sink. Consequently, Miele has reduced water consumption over the past 30 years by 85%. Electricity consumption is also reduced to new all-time lows: in the ECO programme, Miele dishwashers achieve energy consumption values of only 0.83 kWh.

Sound emissions

Miele dishwashers wash with sound emissions as low as 41 dB(A) particularly quiet, yet constantly achieve perfect results. This is even considerably quieter than a normal conversation.

Reduced load

Miele dishwashers automatically measure the amount of crockery in the cabinet and adjust water and electricity consumption accordingly. Thanks to the 'Reduced load' function, there is no longer any need to wait until a dishwasher is fully loaded.

Knock2open⁴⁾

Not wizardry, just Miele: Knock2open turns a handleless kitchen design into a magical experience and at the same time provides the perfect solution for a handleless kitchen design. By tapping the front of the fully integrated Miele dishwasher twice, the door opens by about 10 cm completely automatically using a clever opening mechanism. A convenience you will enjoy every day.

Perfect GlassCare⁵⁾

Soft water enhances cleaning performance in a dishwasher but is aggressive to glassware. Consequently, all Miele dishwashers feature Perfect GlassCare technology. This helps protect glassware and keeps stemware looking as good as new for longer.

In-door salt container⁶⁾

The patented salt container is located in the dishwasher door; it can be conveniently filled with the door half-open and without having to bend down.

Sensor Dry⁷⁾

The ambient temperature in your kitchen and the size of load may influence drying results. In the Sensor wash programme, SensorDry ensures perfect drying results even under unfavourable conditions.

SolarSave

Miele – simply unbeatable in terms of sustainability. The SolarSave feature is the ideal programme for households with heated water supplied by solar-thermal panels, a heat pump or gas/oil central heating, as it makes use of the temperature of the incoming hot water. With intelligent programme navigation you achieve a sensationally low electricity consumption of 0.05 kWh per cycle.

Delay start with integrated countdown indicator

With the 24 h delay start you can run your dishwasher whenever you need to, and use cheap electricity tariffs. The countdown indicator counts the duration of the programme backwards and displays how long the selected programme still has to run. This keeps the user informed of the programme status of the dishwasher.

ThermoSave®

Thanks to ThermoSave, all Miele dishwashers can be connected to hot water with a temperature of up to 60°C. This reduces electricity consumption by up to 40% and running times by up to 9%. Electricity consumption falls to as little as 0.4 kWh in the Eco programme.

TimeControl

Everything under control at a glance: the useful LED progress indicator for fully integrated dishwashers provides information on when the programme will finish.

One hour before the end of the programme, the LEDs start switching off individually from left to right at intervals of 20 minutes. When the programme has ended, the AutoOpen function automatically opens the door a fraction. TimeControl is ideal for all installation situations, even for raised machines or kitchens with a flush plinth.

Touch-on-Metal

This new user interface from Miele offers unparalleled convenience. It combines a high-quality flush design with an intuitive navigation interface from left to right.

The embossed controls of the stainless steel fascia panel are extremely easy to use and the settings are displayed on an LED indicator. The smooth surface of the elegant control panel is particularly easy to clean.

Waterproof System

To protect against flooding, all Miele dishwashers feature the Miele Waterproof System. If correctly installed, Miele offers a dishwasher-life-long⁸⁾ guarantee for the Waterproof System.

CareCollection - For the best cleaning results

Miele detergents, rinse aid and salt for Miele dishwashers

Perfect results

When selecting your dishwasher, you chose top Miele quality. However, the right choice of detergents, rinse aid and salt is also important to achieve optimum wash and drying results.

Not all off-the shelf detergents deliver the same results on all machines.

That is why Miele have introduced a range of detergents, rinse aid, salt and cleaning products specifically designed for Miele dishwashers.

These products were developed and tested in Miele's own in-house laboratories in cooperation with selected quality suppliers.

All formulations are perfectly geared to Miele dishwashers. This allows you to tap the potential of your Miele machines to the full and reduce the burden on the environment at the same time.

The perfect interplay of detergent and dishwasher:

Brilliant shine with every wash.

Riedel recommends Miele

Washing high-quality delicate wineglasses in a dishwasher? No problem with a Miele appliance! With a unique combination of intelligent features, Miele is the specialist when it comes to gentle care of glassware:

- 3D cutlery tray: sufficient clearance also for stemware
- DeLuxe baskets: secure positioning of wine glasses
- AutoOpen drying: gentle, brilliant drying without polishing
- Perfect GlassCare: long-lasting sparkling finish on glassware
- 'Gentle' programme: perfect glass care control
- CareCollection: perfectly matching detergents with special glass-protection formula

The result: sparkling clean glasses without polishing. No smears, no water stains, no glass breakage. Even after many years of dishwashing, your valuable glassware is as beautiful as on the day of purchase. Even high-quality, delicate stemware can be treated in a Miele dishwasher without any risk. This is confirmed by Riedel, manufacturer of wine glasses. Georg Riedel recommends that Riedel glasses

Perfect care for high-quality stemware. Riedel recommends Miele dishwashers

Optimum cleaning and gentle care for your delicate crockery and glassware

Perfect cleaning results, even with stubborn dirt

(hand-blown and machine-blown) be washed in a Miele dishwasher: "That our high-end glassware can be perfectly and gently washed in a Miele is quite new to us. A Miele dishwasher makes perfect glass care easy. To ensure the gentle cleaning of our glasses, we exclusively recommend washing them in a Miele dishwasher. This produces better results than washing by hand."

Dishwasher Tabs 3 x 24 tabs

For the best results in Miele dishwashers.

- No need to unwrap thanks to water-soluble foil wrapping
- Spotless cleaning - even in the face of stubborn soil
- Contains salt substitutes to prevent scaling
- Glass protection formula prevents etching
- Special protection against stains on silverware and stainless steel
- Phosphate-free - Good for the environment

Dishwasher Powder 1.5 kg

For best results in Miele dishwashers.

- Super-active enzymes - effective even at low temperatures
- Active oxygen for thorough cleanliness
- Glass protection formula prevents etching

Dishwasher Rinse Aid 500 ml

For excellent drying and protection of crockery in Miele dishwashers.

- Spotless, sparkling finish on glassware
- Supports drying
- Glass protection formula prevents etching

Dishwasher Salt 1.5 kg

For best results in Miele dishwashers.

- Extra coarse
- Prevents deposits

Dishwasher and washing machine cleaner 250 g

For hygienic cleanliness in dishwashers and washing machines

- Removes grease, bacteria and unpleasant odours
- Effective and thorough cleaning thanks to special Miele formulation
- Guarantees perfect wash and/or rinse results
