A major paradigm shift expanding our core philosophy of

I M M E R B E S S E R

There has to be a better way – a core philosophy expanded into a new century of design and technology. It’s this thought that prompted Carl Miele and Reinhard Zinkann in 1899 to build their first product. These legendary founders of Miele believed that success was only achievable in the long-term by being convinced of the quality of one’s product. Their motto “Immer Besser” which translates as “Forever Better” remains to this day and is at the heart of everything the company does from innovation in design and technology, to breaking new ground in product effectiveness and ease of use.

Our heritage is our future.

It was Forever Better from the beginning. Our founders’ vision and commitment continues to inspire us. Forever Better means to never compromise on quality and to seek constant improvement. This is the core philosophy for Miele, applied to every aspect of the company for more than 100 years. Forever Better represents a duty and a challenge to us towards continuous innovation. Our commitment to innovation is a celebration: our celebration for creation, and your celebration of a better life. This celebration of life drives us to create and recreate in the pursuit of perfection.
Miele Professional is a range of superior washing machines and dryers and dishwashers that have been designed for optimum efficiency and optimum outcome on big jobs. They offer the same Miele quality, innovation and ease of use, but with enhanced endurance and enhanced capacity – over a much shorter time frame. Equally at home in businesses and professional homes, Miele Professional appliances are for those who want the very best for their families, quickly and with minimum disruption and fuss.

Welcome to Miele Professional for the Home.
Miele Professional. For the ‘Professional' home.

There are homes. Then there are professional homes. Homes that need tasks to be performed with professional speed, professional precision and professional capacity. Homes where time matters. Where efficiency is paramount. Homes where Miele Professional appliances have pride of place.
Introducing Miele Professional for the Home

As the family grows, so too do the mountains of laundry and crockery.

Regular domestic machines often have difficulty coping. In many cases the tumble dryer or dishwasher is also too slow to keep up the pace.

So, whether small business or large family, the same applies: Commercial dishwashers or commercial washing machines and tumble dryers from Miele are the ideal solution.

With their short programme cycles, they ensure that clean, fresh laundry and sparkling crockery is available again in next to no time.
Large capacity

Clearly a larger capacity is going to translate to serious savings for your most valuable asset - time. But it will also utilise less of those other finite resources - water and power - which translates to some welcome savings financially.

Our large capacity dishwashers handle 14 place settings in one load, with consummate ease, while still delivering the same shining results and the kind of attention to detail anyone running a busy household finds invaluable.

With an 80 litre drum (perfect for bulky items) our 10 kg washing machines make quick and clean work of the equivalent of 20 bath towels or 14 pairs of jeans. Which all adds up to one very big load off your shoulders!
How long do you have?

The Octoplus wash and dry 10 kg laundry in 96 minutes. Whereas, a domestic washer needs 129 minutes just for the washing programme.
Speed and Flexibility

When you are running a big, busy household time is not always your friend. But with shorter running times across all programmes... your Miele Professional appliances will be.

For those times when something, absolutely, definitely has to be washed now these clever washing machines, which can handle up to six big loads a day, have faster programme cycles. With their fast spin cycle more moisture is extracted, which goes on to save on energy and time in the tumble dryer.

Meanwhile, your Miele Professional dishwasher can leave a big load of glasses gleaming in 18 minutes, or whip through a full load at a short dash of just 20 minutes. With friends like these, time is no longer your enemy.
Efficiency, Durability, Quality and Perfection

With up to 57 professional wash programmes your Miele Professional washing machine will deliver a perfect finish, no matter what you throw at it. It is also a great comfort to know that all your Miele appliances aren’t just beautiful to look at.

Robust to the point of pedantry in every component of their construction, from their cast iron bases to their reinforced lids, they are German engineered for serious commercial endurance.
Miele Professional for the Home – Laundry

Honeycomb Drum
Honeycomb drum for gentle laundry care

Robust Design
Drum bearing cross tested for commercial endurance

Profitronic L Vario Controls
Controls easy to use and flexible at the same time

Bigger Filters
Less cleaning required with large, simple to clean surface filter
Large Drum

Big door opening for voluminous and bulky items such as big doonas.
Extra large cabinet

Flexibility of the baskets including
3D cutlery tray
Miele Professional for the Home – Dishwashing

Quick as a flash
High throughflow heater for faster programme cycles

A breath of fresh air
AutoOpen Drying for perfectly dried crockery

Hygienic Chamber
German engineered to always ensure the interior remains germ free

Let there be light
BrilliantLight for ease of loading and unloading
Little Giants

- Fast cycle times
- Tested for commercial endurance
- Use up to 6 x times per day

PW 6065 Vario washer-extractor

- Load capacity 6.5 kg
- Profitronic L Vario controls
- Honeycomb drum, 59 l capacity
- Spin speed 1400 rpm
- Direct-access keys
- g factor 526, residual moisture 49%
- Installation as washer-dryer stack possible

PT 7135 C Vario tumble dryer

- Condenser dryer
- Load capacity 6.5 kg
- Profitronic L Vario controls
- Honeycomb drum, 130 l capacity
- Direct-access keys
- Installation as washer-dryer stack possible
Octoplus Laundry

- Fast cycle times
- Extra Large Capacity (Large King size Doonas, blankets, curtains)
- Tested for commercial endurance

**PW 6088 Vario washer-extractor**

- Load capacity 10 kg
- Profitronic L Vario controls
- Honeycomb drum, 80 l capacity
- Spin speed 1300 rpm
- Direct-access keys
- g factor 520, residual moisture 49%
- Stainless steel casing with Octoblue side panels

**PT 7188 Vario tumble dryer**

- Vented dryer
- Load capacity 10 kg
- Profitronic L Vario controls
- Honeycomb drum, 180 l capacity
- Direct-access keys
- Stainless steel casing with Octoblue side panels
The benefits at a glance

- Simple controls
- Convenient programme selection
- Programme data and countdown time indicated
- 9 Programmes to suit individual applications
- Delay start, up to 24 hrs in advance

ProfiLine Dishwashers

- Miele’s fastest Domestic Dishwasher
- 20 Minute fast cycle
- Available in Semi-integrated or Fully-integrated versions
### Miele Laundry Product Specifications

#### Washer-extractor

- **Brand:** PW 6065
- **Type:** Frontloader, large door opening [Ø mm] 300

#### Performance data

* When connected to hot water supply and AC 230V 50Hz 25A
* = Standard, * = Optional
No bending down anymore... and extra storage space

- Single installation of a machine on a plinth needs to be pre-bolted to the floor by the customer prior to installation.
- For a side by side installation a pre-bolting to the floor is only required for the Little Giants, the Octoplus machines can be installed by Miele without any bolting into the floor.
- A stack installation is only available for the Little Giants and not on top of a plinth.
- For the ducting of the dryer PT 7188 the following items are required:
  - an adapter
  - a wall vent kit* or window vent kit*
  - Plastic pipe or flexible ducting hose*, available from your retailer. Where the pipe diameter is more than 100 mm, an adapter is necessary (e.g. 100 to 125 mm) to connect the pipe to the dryer.

*Optional accessory
After sales support

When you purchase any Miele appliance, our care and attention to detail does not end there. Miele’s after sales support aims for the same high standard of quality as our products.

Uniquely, Miele offers a streamlined service from purchase through to installation, ensuring that your products are safely delivered and first operation of the Miele product of your choice is seamless.

Delivery and installation are carried out by our recently upgraded network of customised Miele vans staffed by qualified Miele teams of two who have the right tools and the right attitude to ensure your new Miele appliance fits perfectly and runs smoothly from the outset.

At Miele, quality customer support is as important as quality products.
At Miele, we want you to derive maximum, trouble-free enjoyment and convenience from your Miele products. That is why we have invested significantly to ensure that all major metropolitan areas* are serviced by our own team of highly trained Miele technicians. All of this care and attention to detail on delivery and installation is then backed up by our National Parts Distribution Centre based at our Knoxfield head office, and supported by your local Miele Service Contact Centre.

Should you ever have an issue with any of your Miele appliances, you can rest assured that we will resolve your concern quickly, effectively and with the minimum of fuss.

*Outside of the metropolitan areas we work closely with our network of accredited service agents, all of whom are supported by ongoing training and technical support.
